

82

pleat down

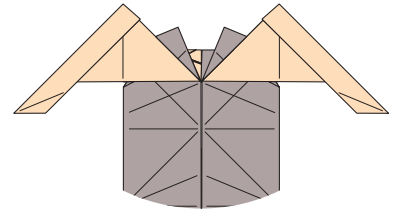

83

77-82

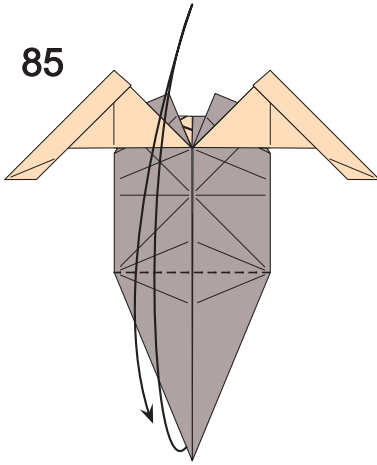

repeat steps 77-82

84

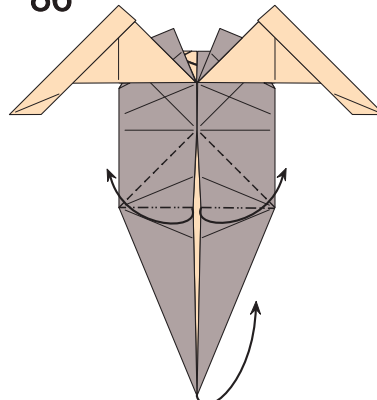

...the result

85

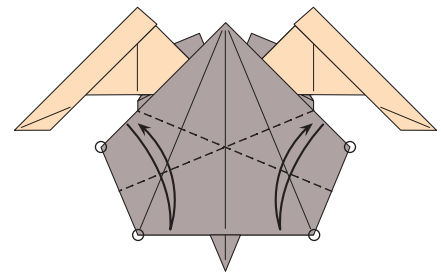

precrease

86

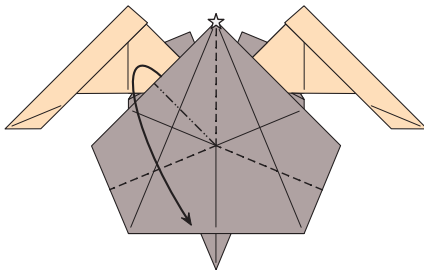

open and squash

87

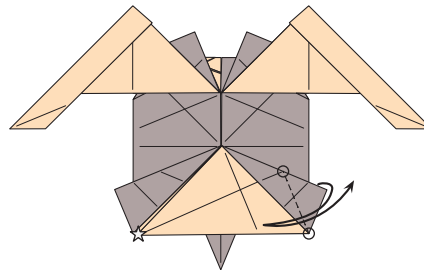

precrease

88

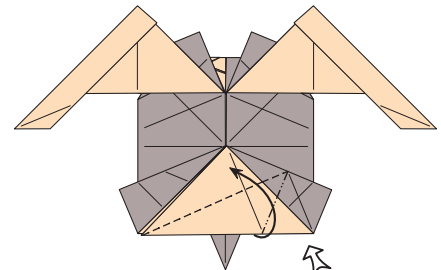

rabbit-ear fold

89

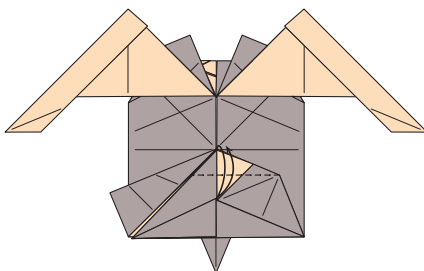

precrease the top flap

90

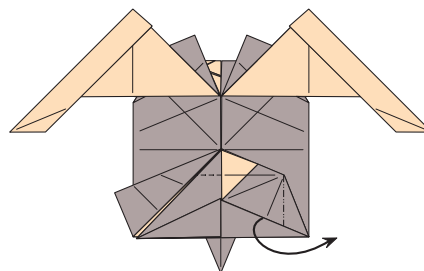

open and squash

91

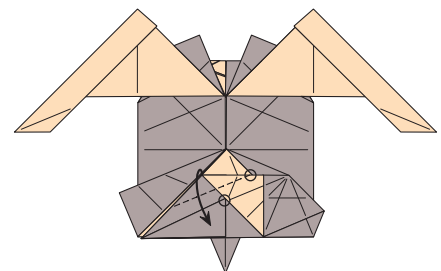

precrease the top flap

92

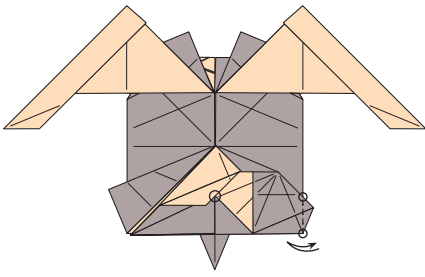

swivel and squash

93

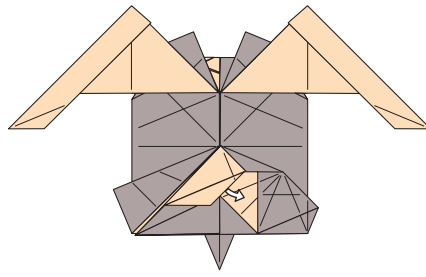

fold top flap down
see next step as reference

94

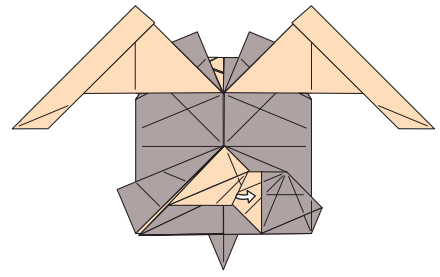

crease through the edge

95

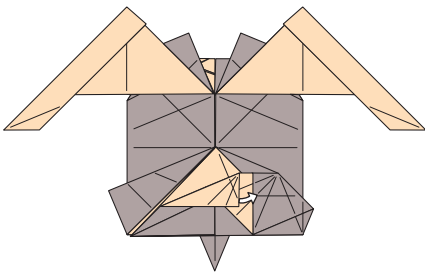

pull paper out
switch mountain/valley lines

96

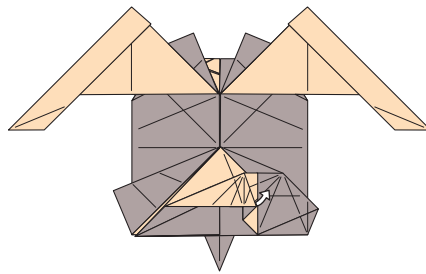

pull paper out
switch mountain/valley lines

97

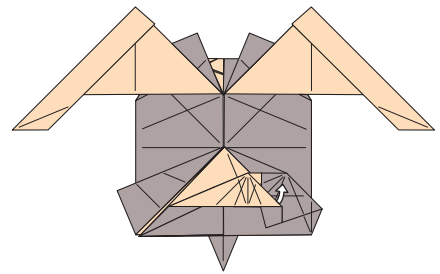

pull paper out
similar as previous step

98

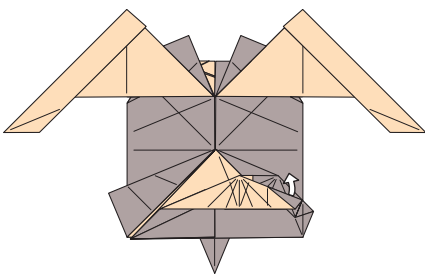

pull paper out
similar as previous step

99

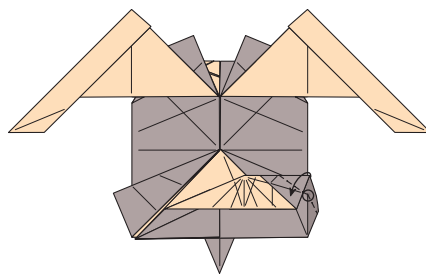

pull paper out
similar as previous step

100

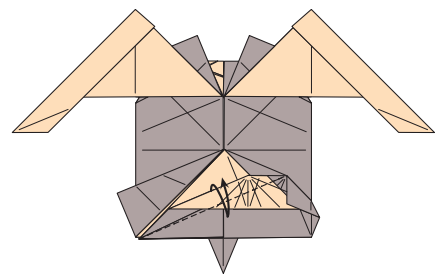

pull paper out
switch mountain/valley lines
model would not lie flat

101

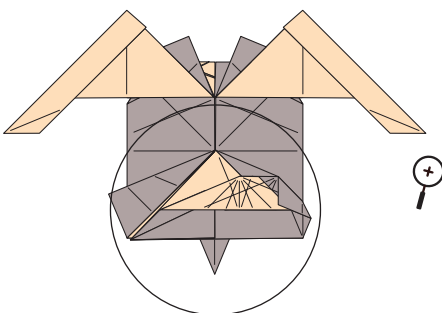

flatten the top flap
align with the layer in the back

102

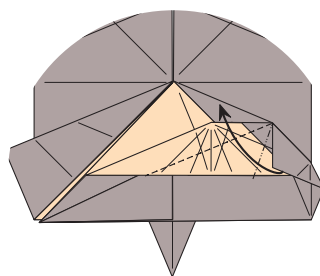

fold and unfold the top flap

103

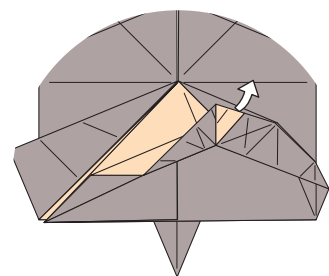

104

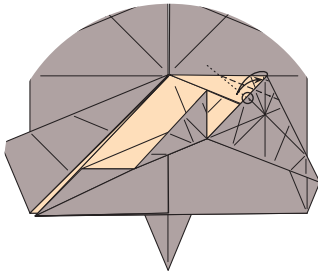

bring out inner layers

105

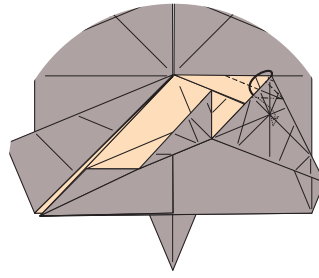

pull paper out

106

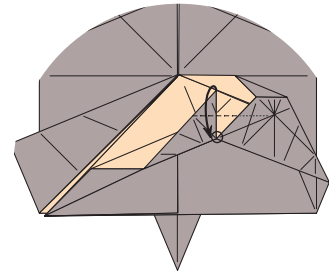

precrease

107

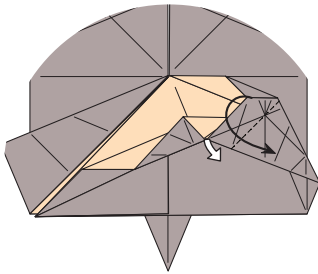

inside-reverse fold

108

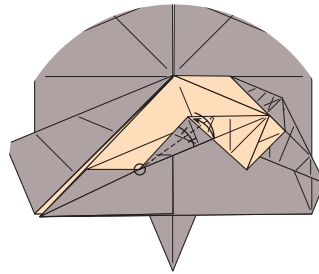

fold inner flap down

109

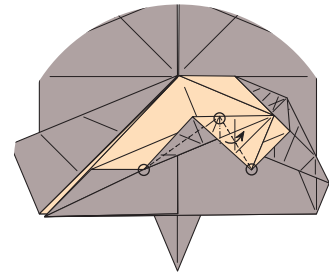

fold top flap down and release inner layer

110

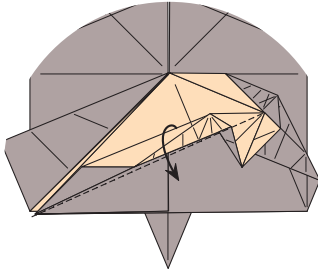

precrease

111

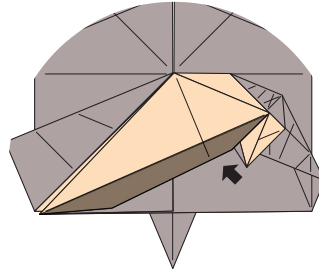

swivel and squash

112

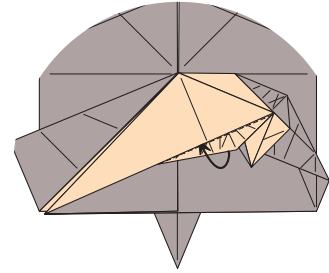

fold two flaps down

113

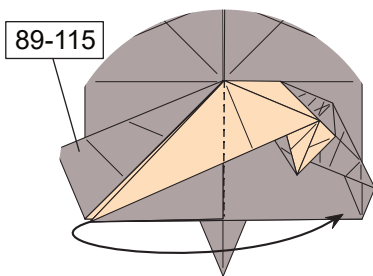

closed sink for top flap

114

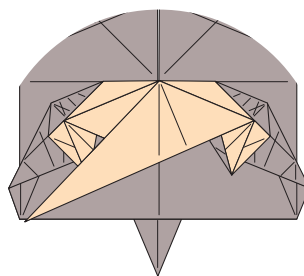

tuck paper inside the pocket

115

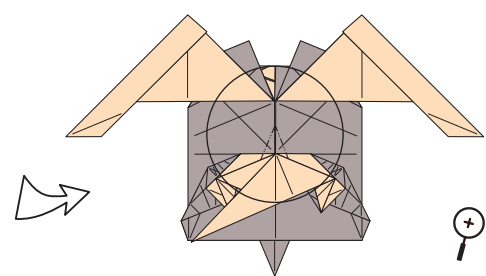

repeat step 89 to 115

116

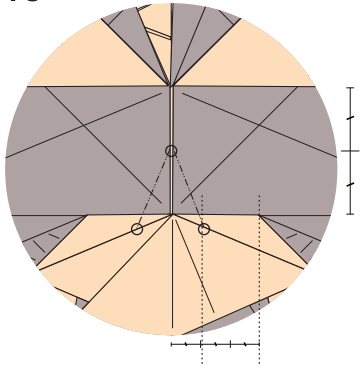

...the result

117

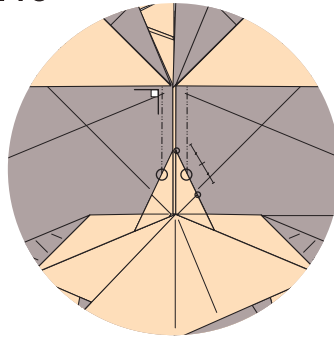

118

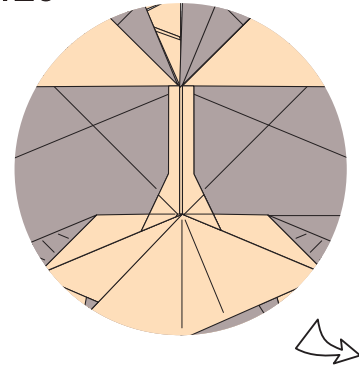

fold top flap backwards
follow the approximation

119

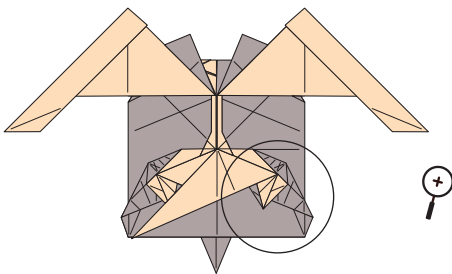

fold top flap backwards
follow the approximation

120

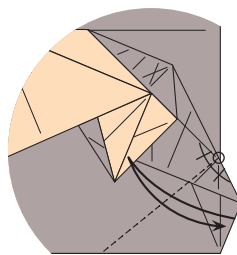

...the result

121

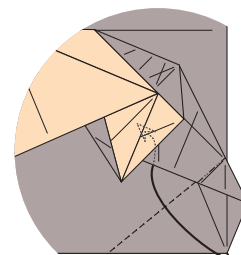

122

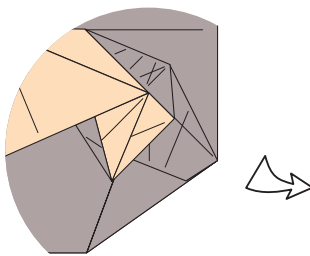

precrease as angle bisectors

123

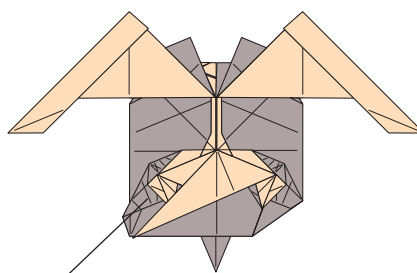

inside-reverse fold

124

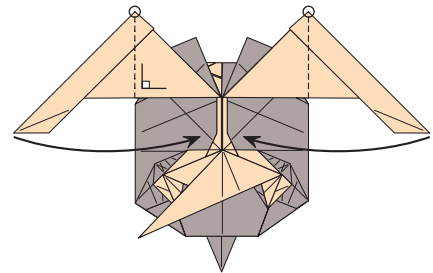

...the result

125

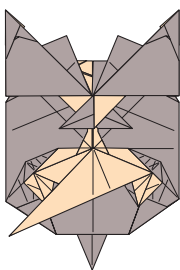

repeat steps 122-124

126

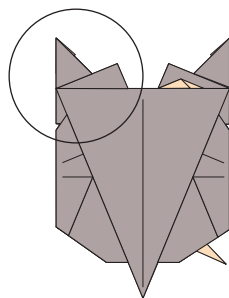

fold the wings inward

127

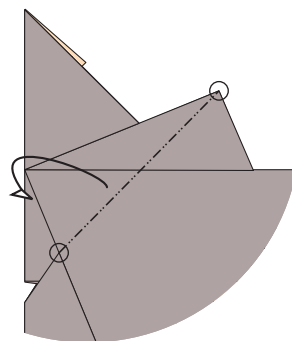

...the result

128

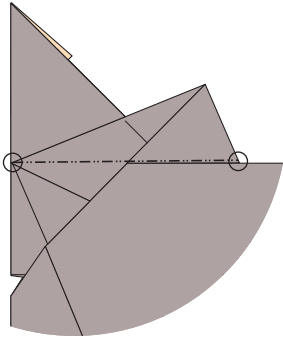

129

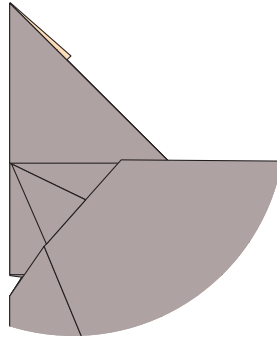

fold top flap backwards

130

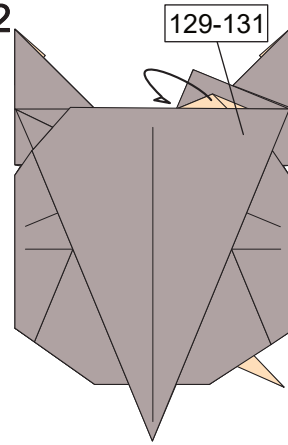

tuck the flap backwards

131

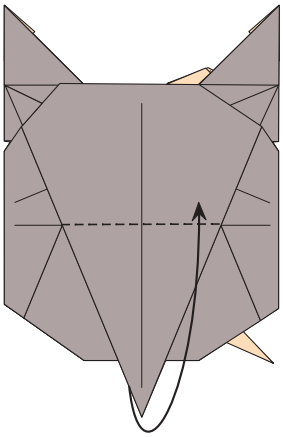

the edge is now locked

132

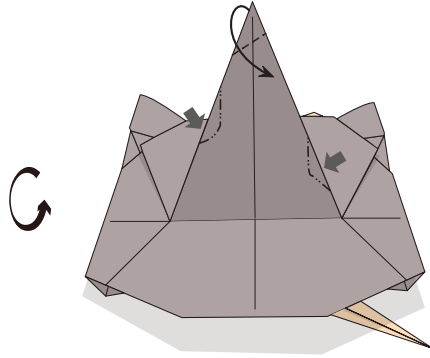

hide the head beneath
repeat steps 129-131

133

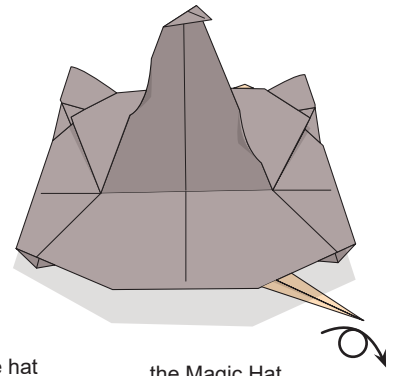

raise the flap

134

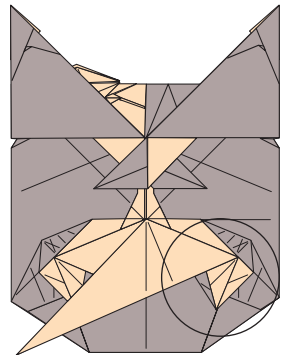

slightly bend the top
press 2 layers inwards on the front and back of the hat

135

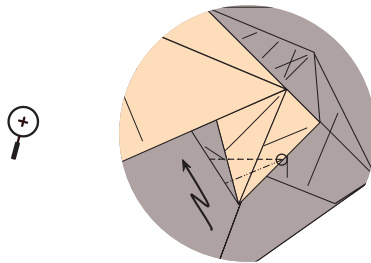

...the Magic Hat.
