

A white, diamond-shaped object, possibly a piece of paper or a small board, is centered on a dark, textured background. The object is oriented with its vertices pointing towards the corners of the frame. The text "Preliminary base" is printed in a black, sans-serif font in the center of the white diamond.

Preliminary base

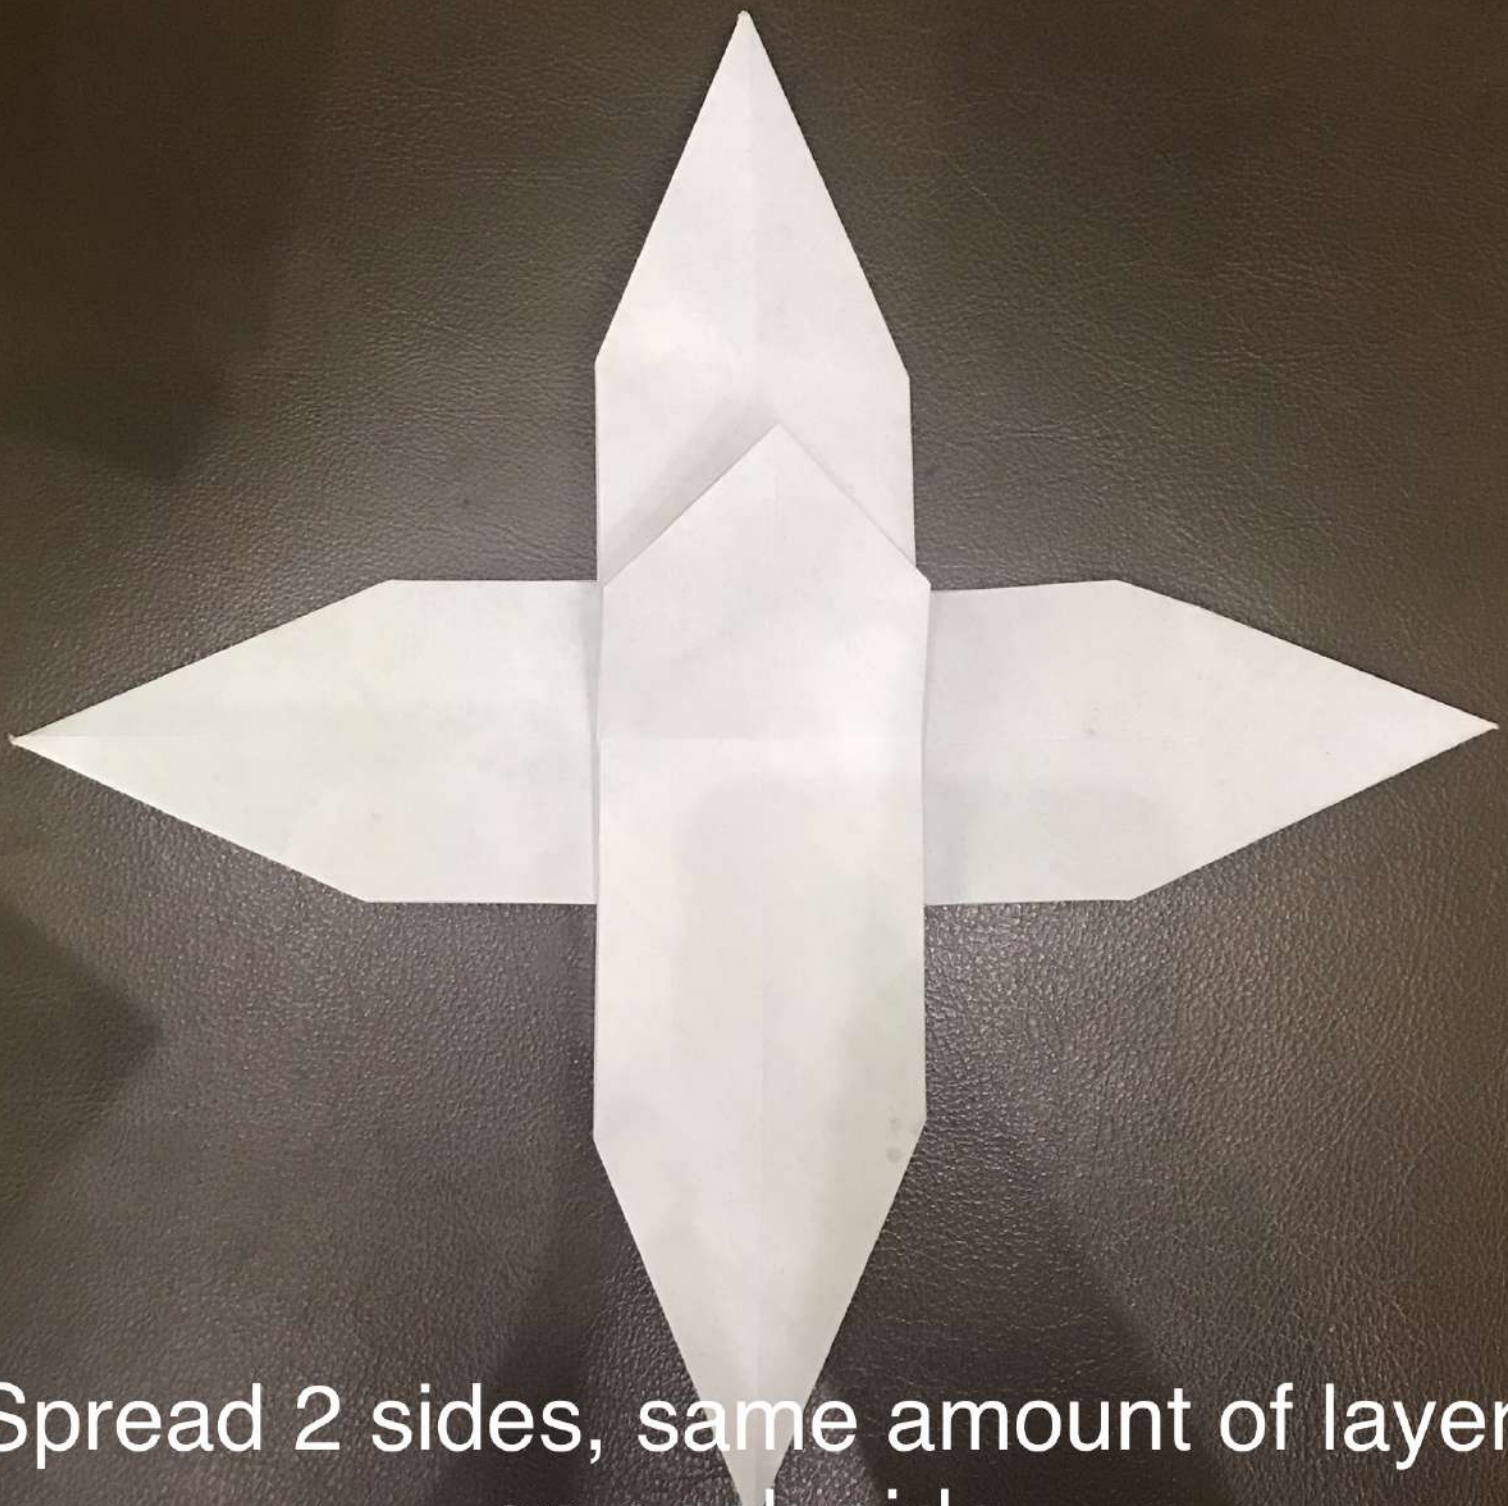

Bird base

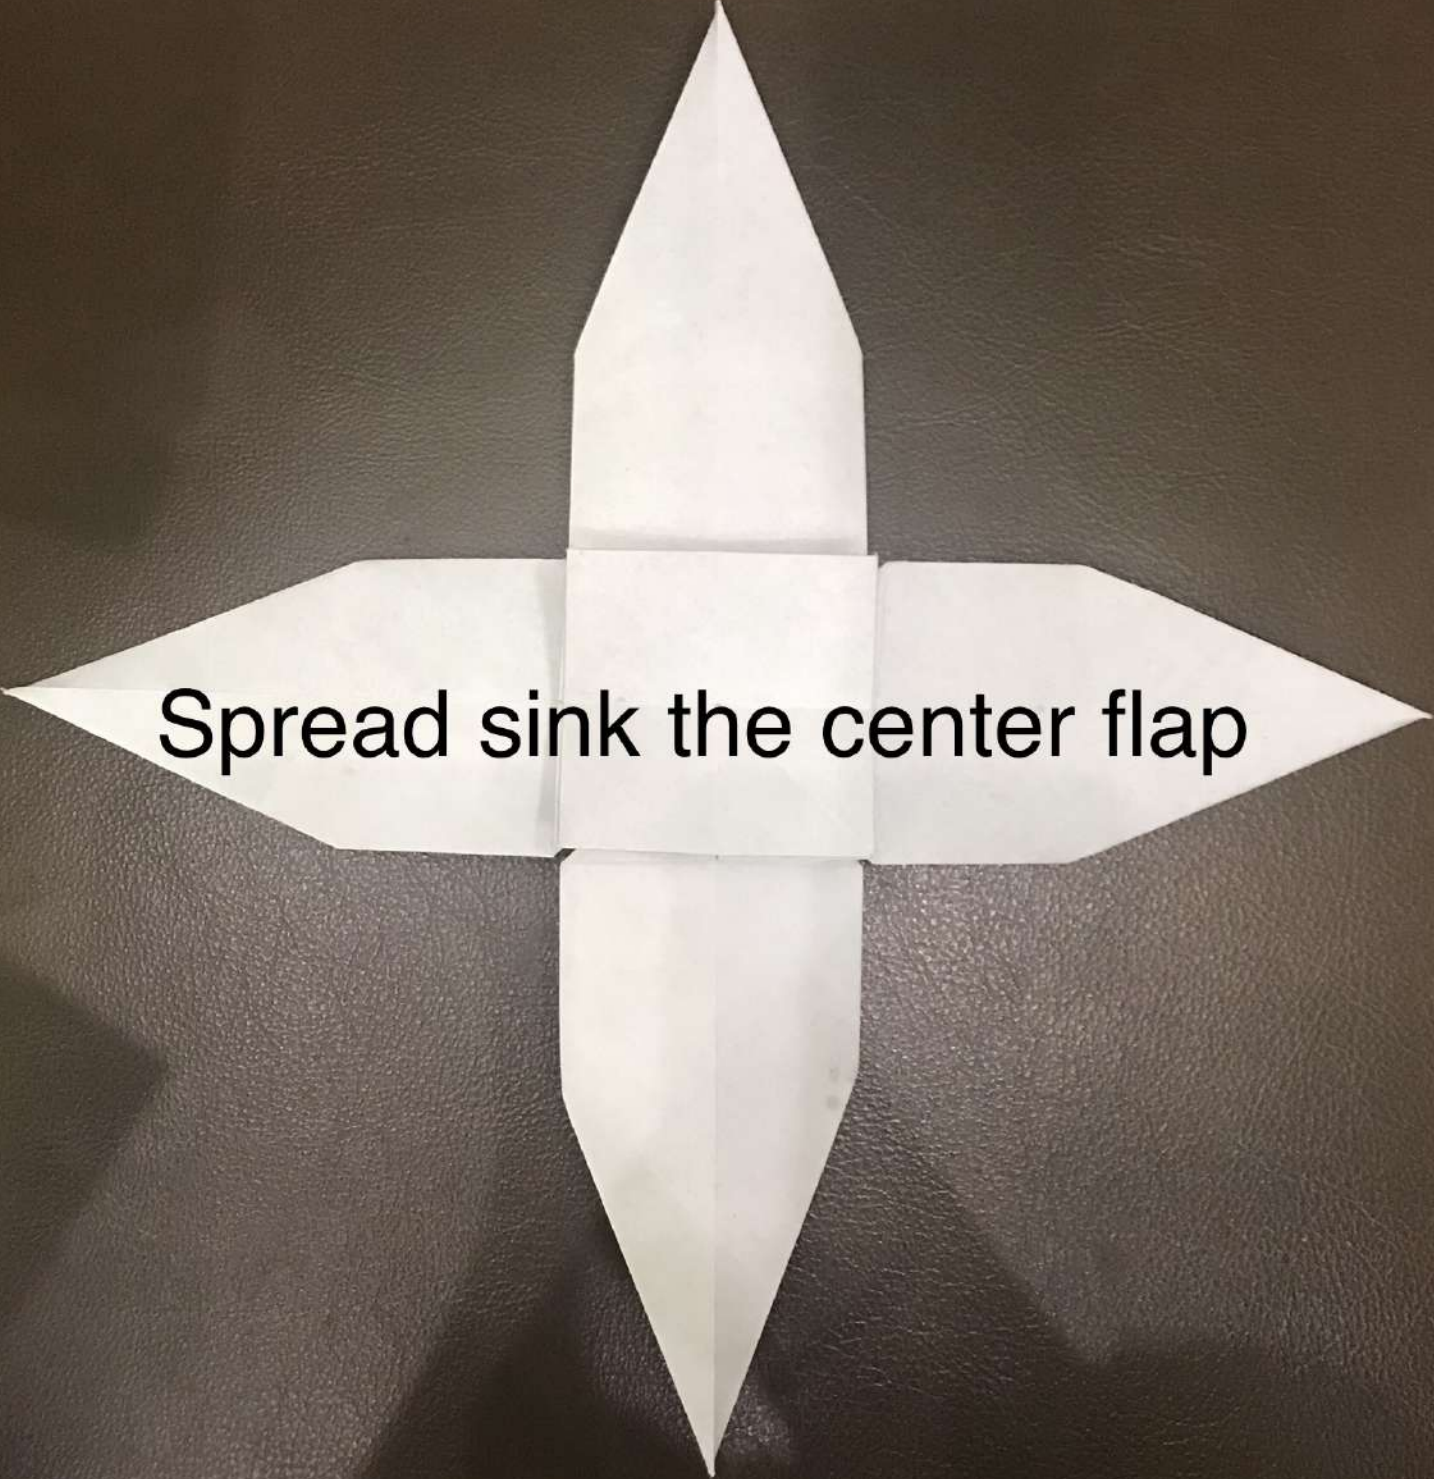

Open sink

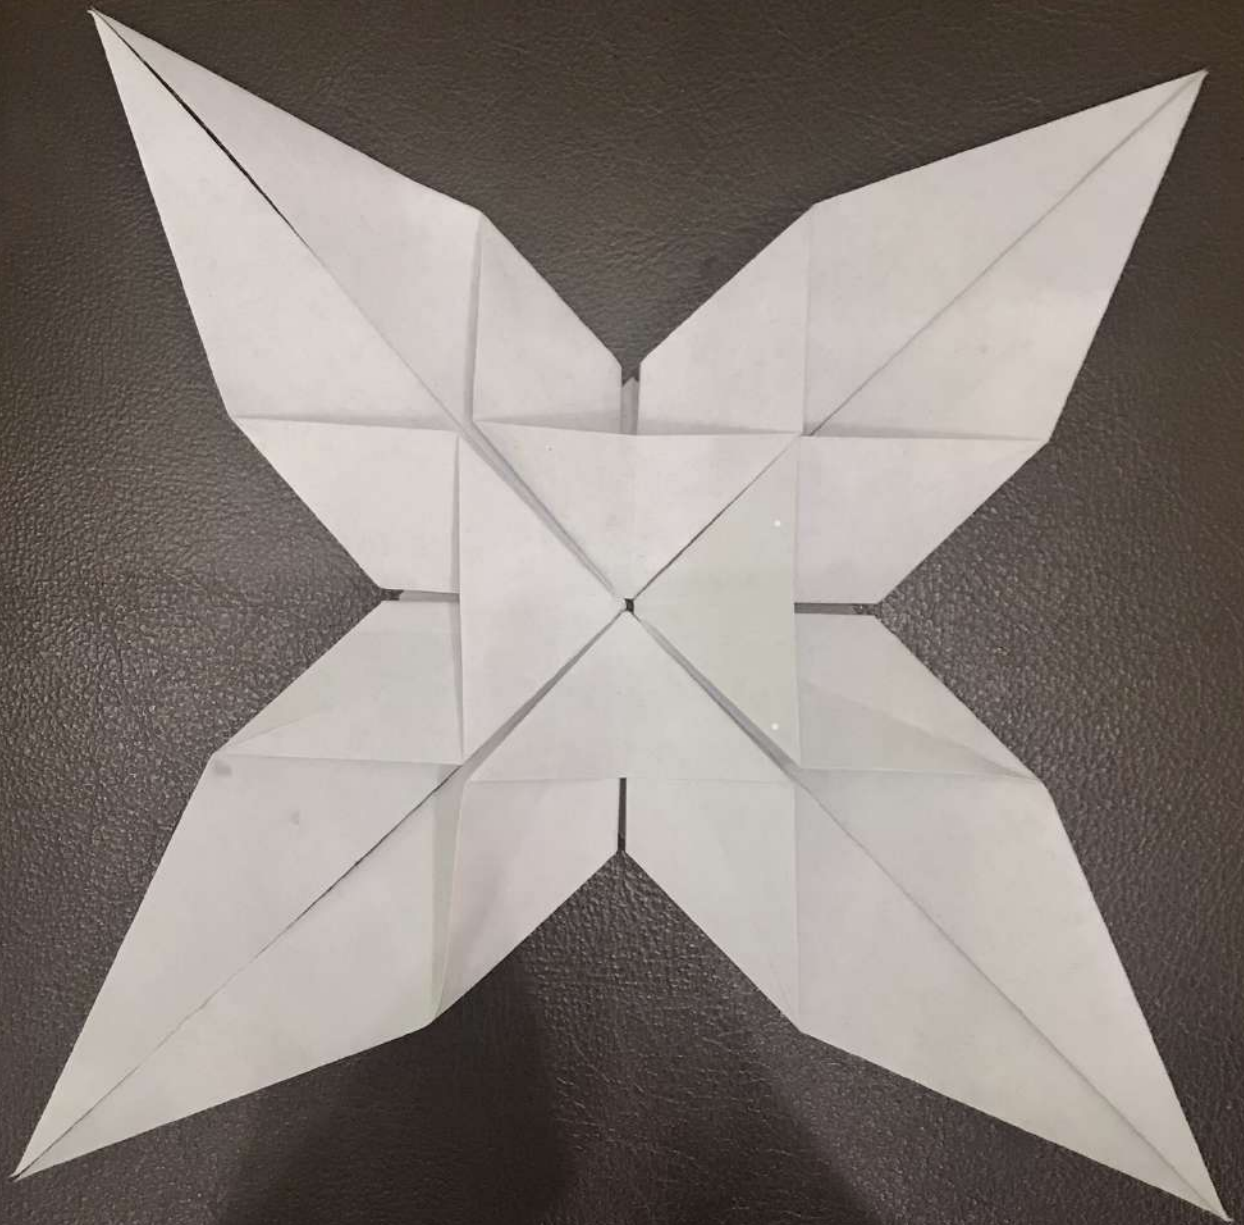

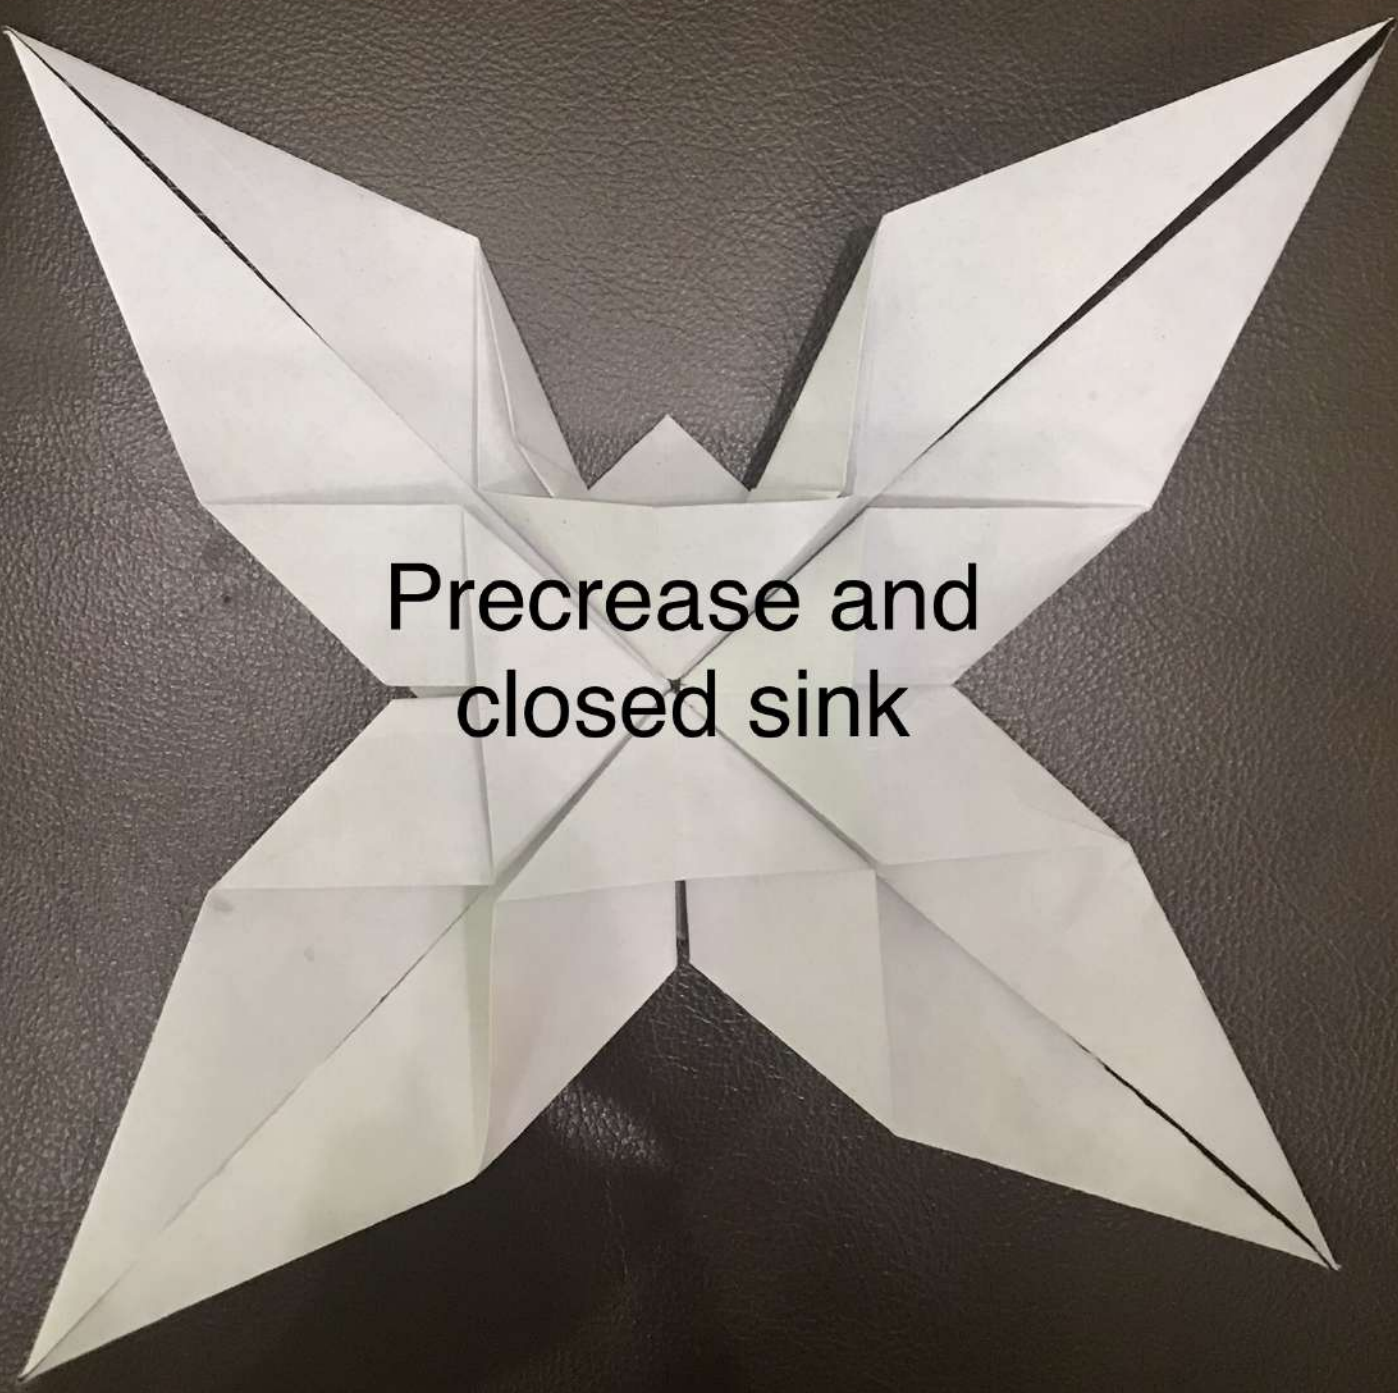

Spread 2 sides, same amount of layer
on each side

A white paper net for a four-pointed star, laid flat on a dark brown textured surface. The net consists of a central square flap, four triangular points extending from the corners of the square, and four trapezoidal flaps extending from the sides of the square. The text "Spread sink the center flap" is printed in black across the central square flap.

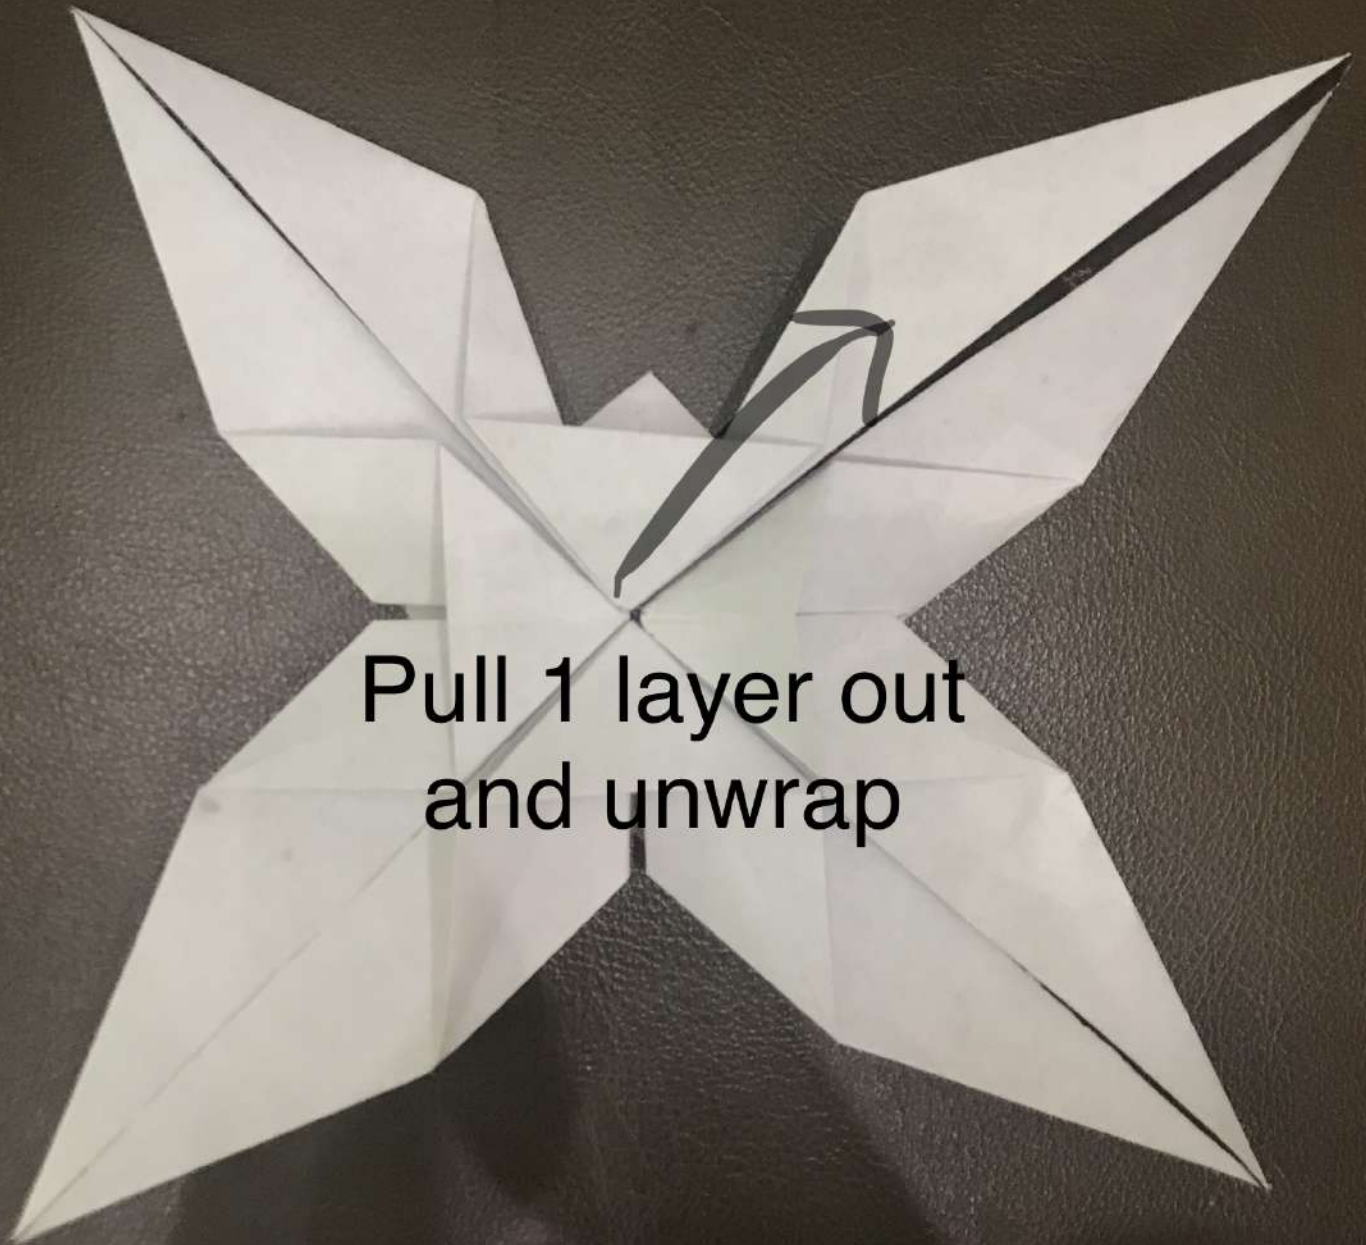

Spread sink the center flap

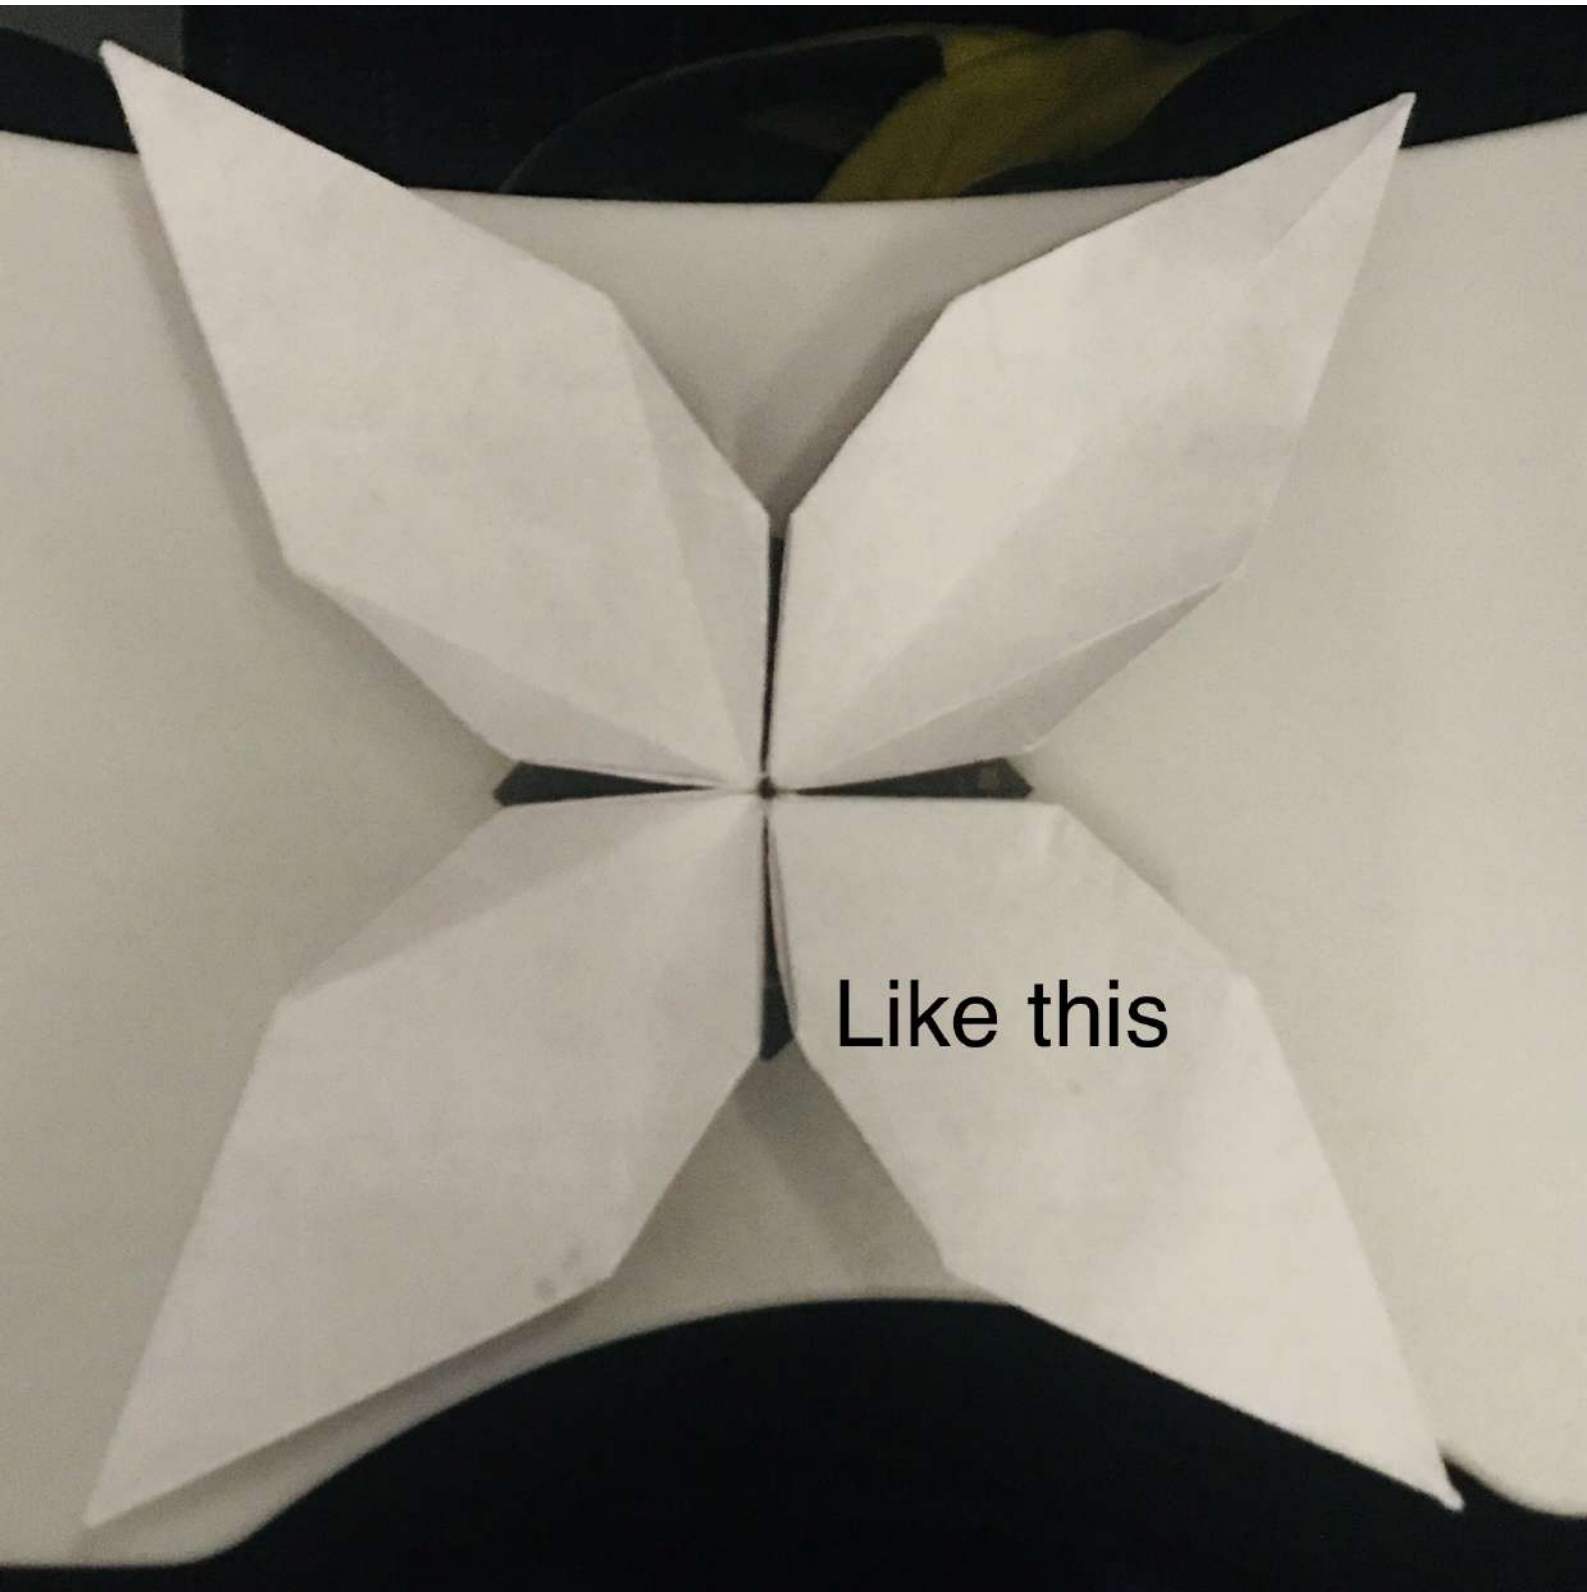

Pull out excess layers from bottom

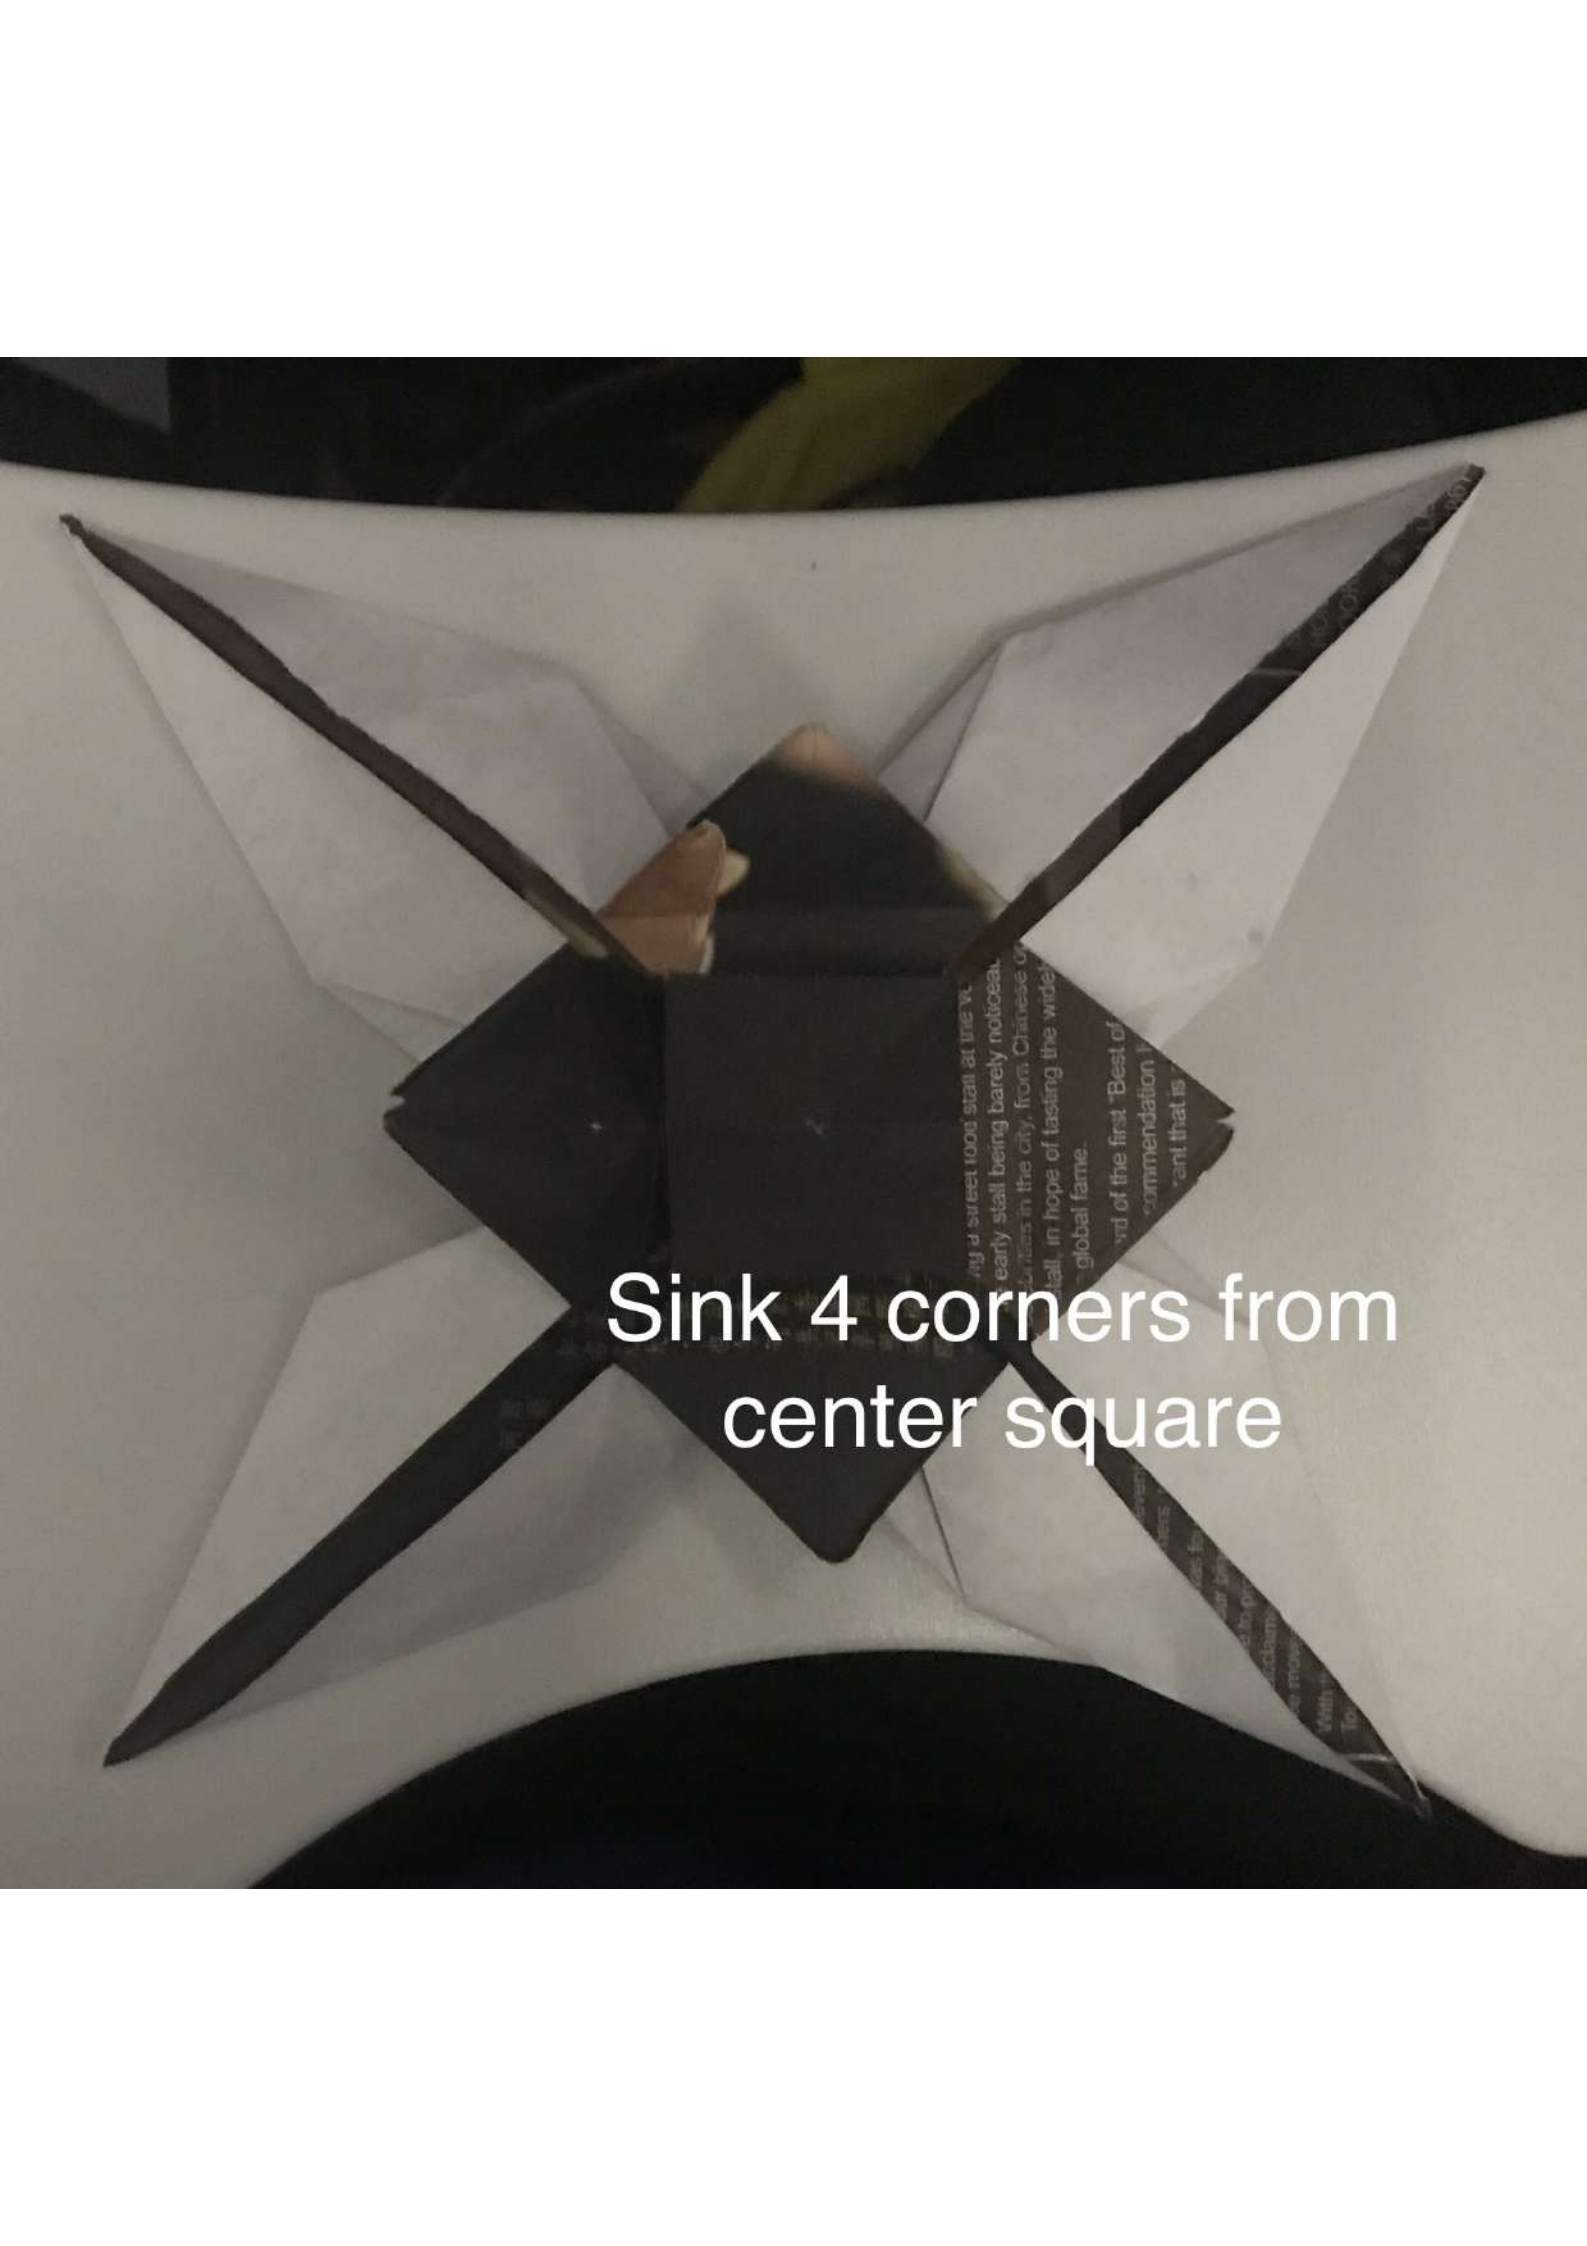

Precrease and
closed sink

Pull 1 layer out
and unwrap

A white paper bag is shown with a dark square in the center. The four corners of the bag are being pulled inward towards the center square, illustrating the process of 'sinking' the corners. The text 'Sink 4 corners from center square' is overlaid on the image. The dark square in the center contains some faint, partially legible text from the reverse side of the paper, including phrases like 'ing a street food stall at the v...', 'early stall being barely noticea...', 'stalls in the city, from Chinese o...', 'stall, in hope of tasting the wide...', 'global fame.', 'rd of the first "Best of', 'commendation h...', 'ent that is'.

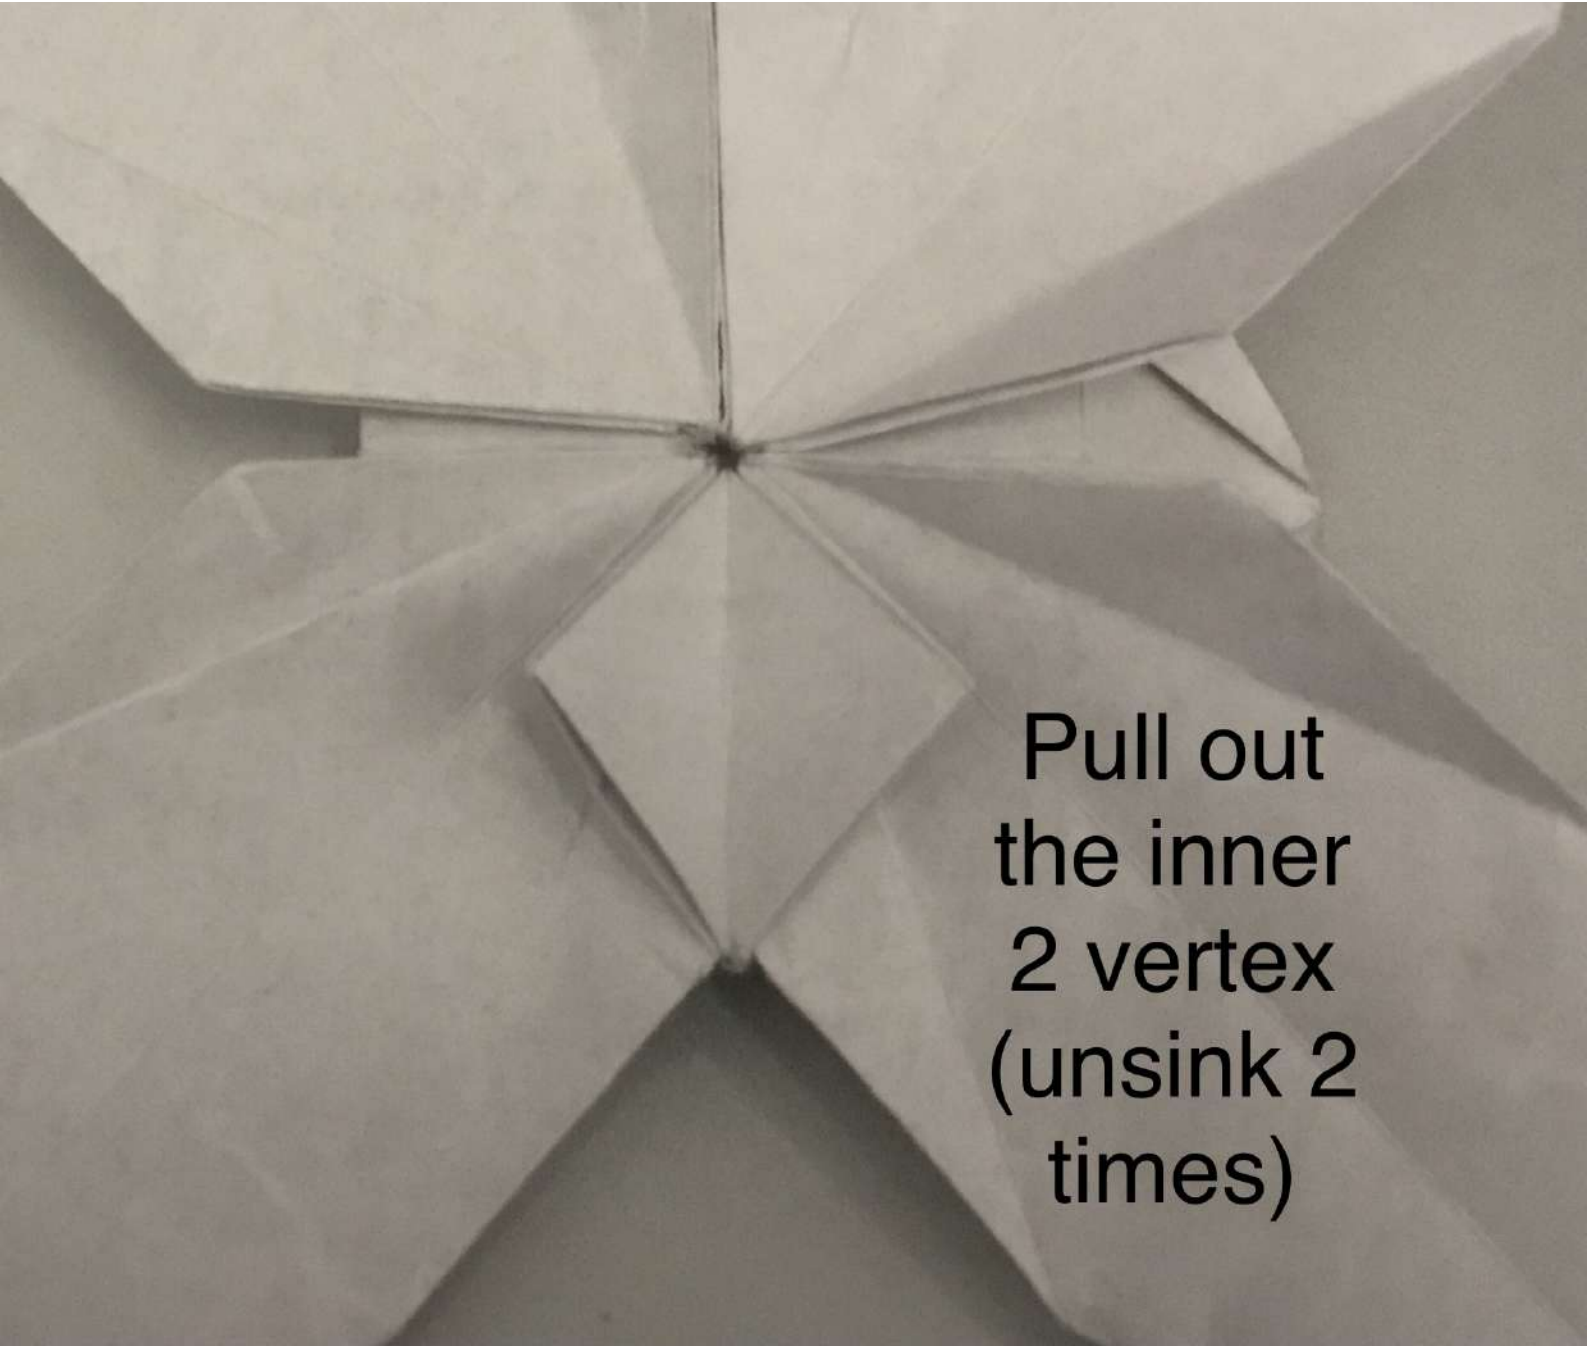

Sink 4 corners from
center square

Pull down the
inner layer as far
as possible

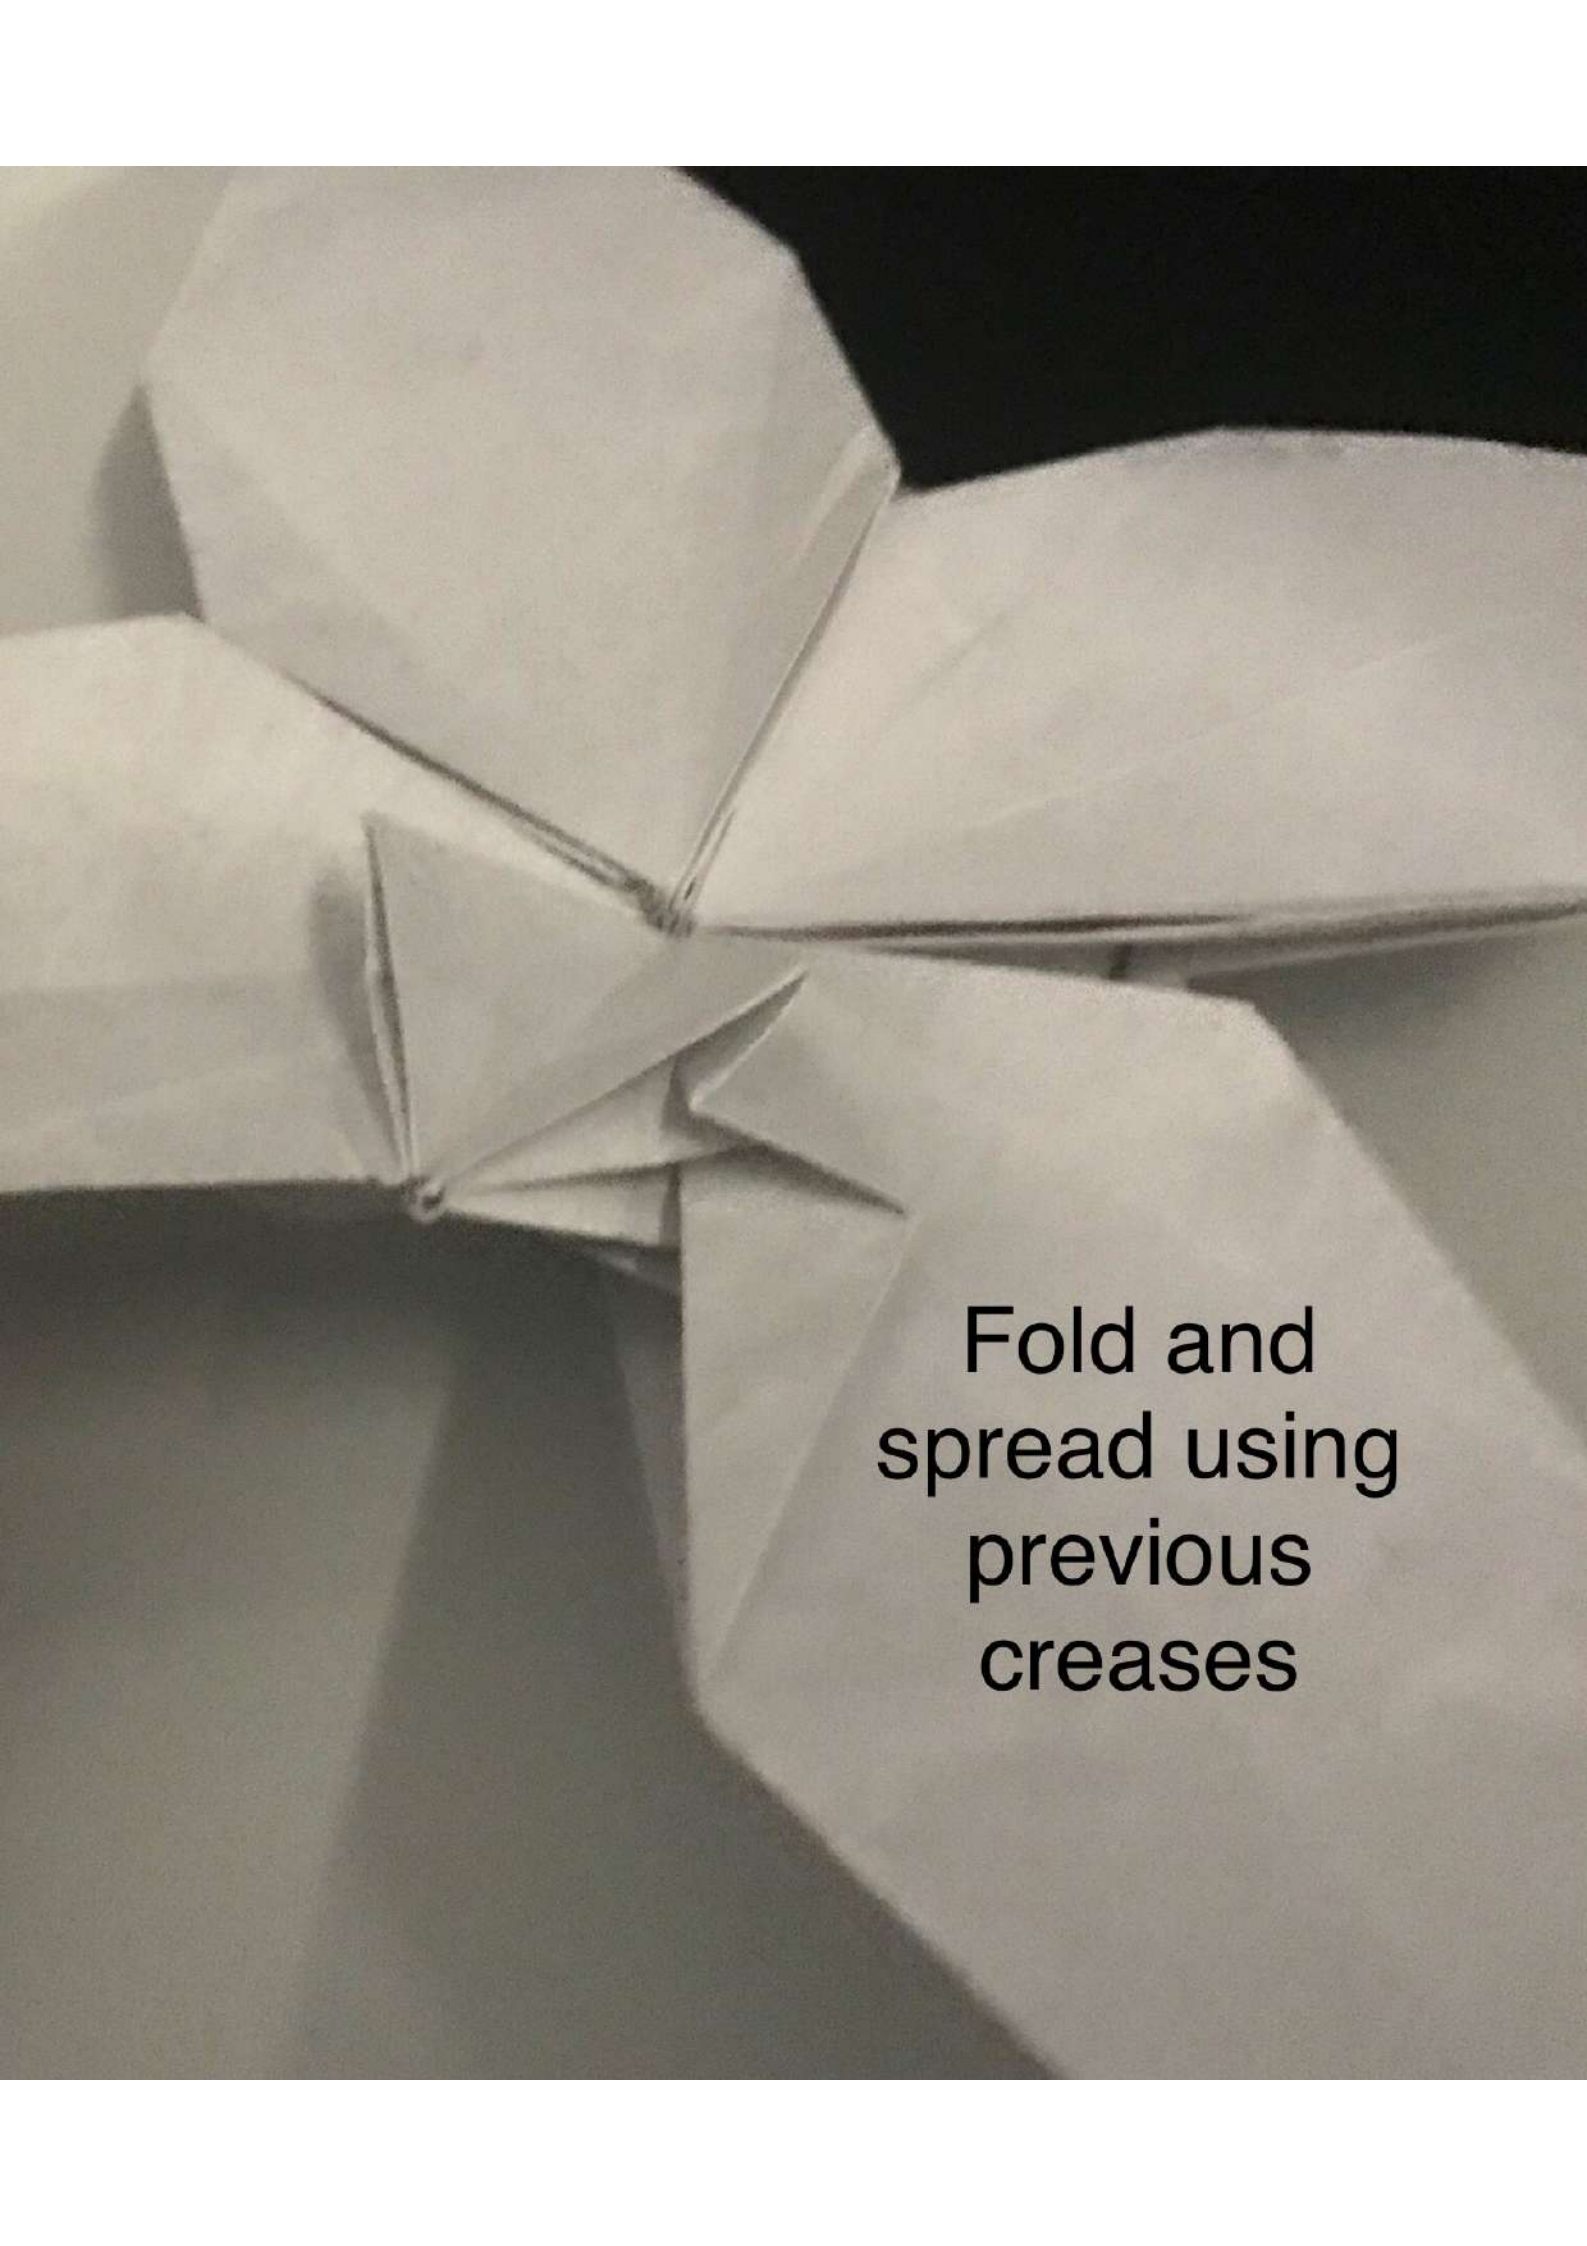

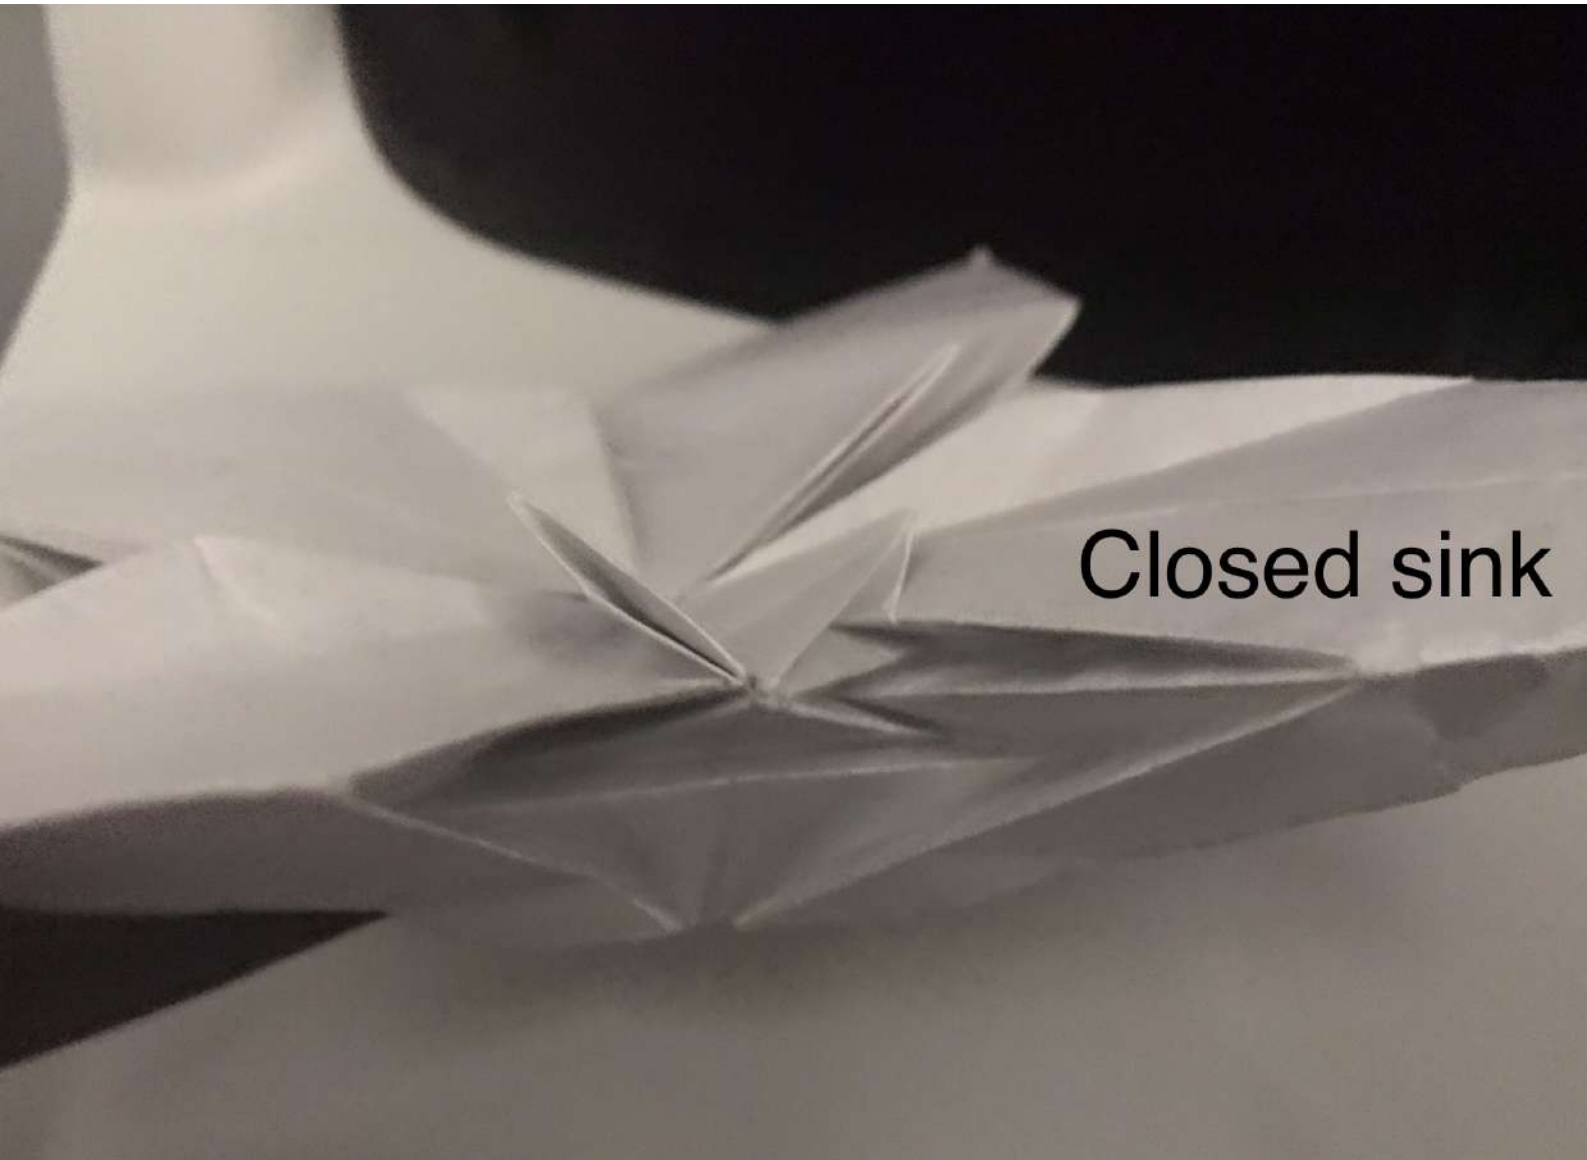

Precrease and unfold

Pull out
the inner
2 vertex
(unsink 2
times)

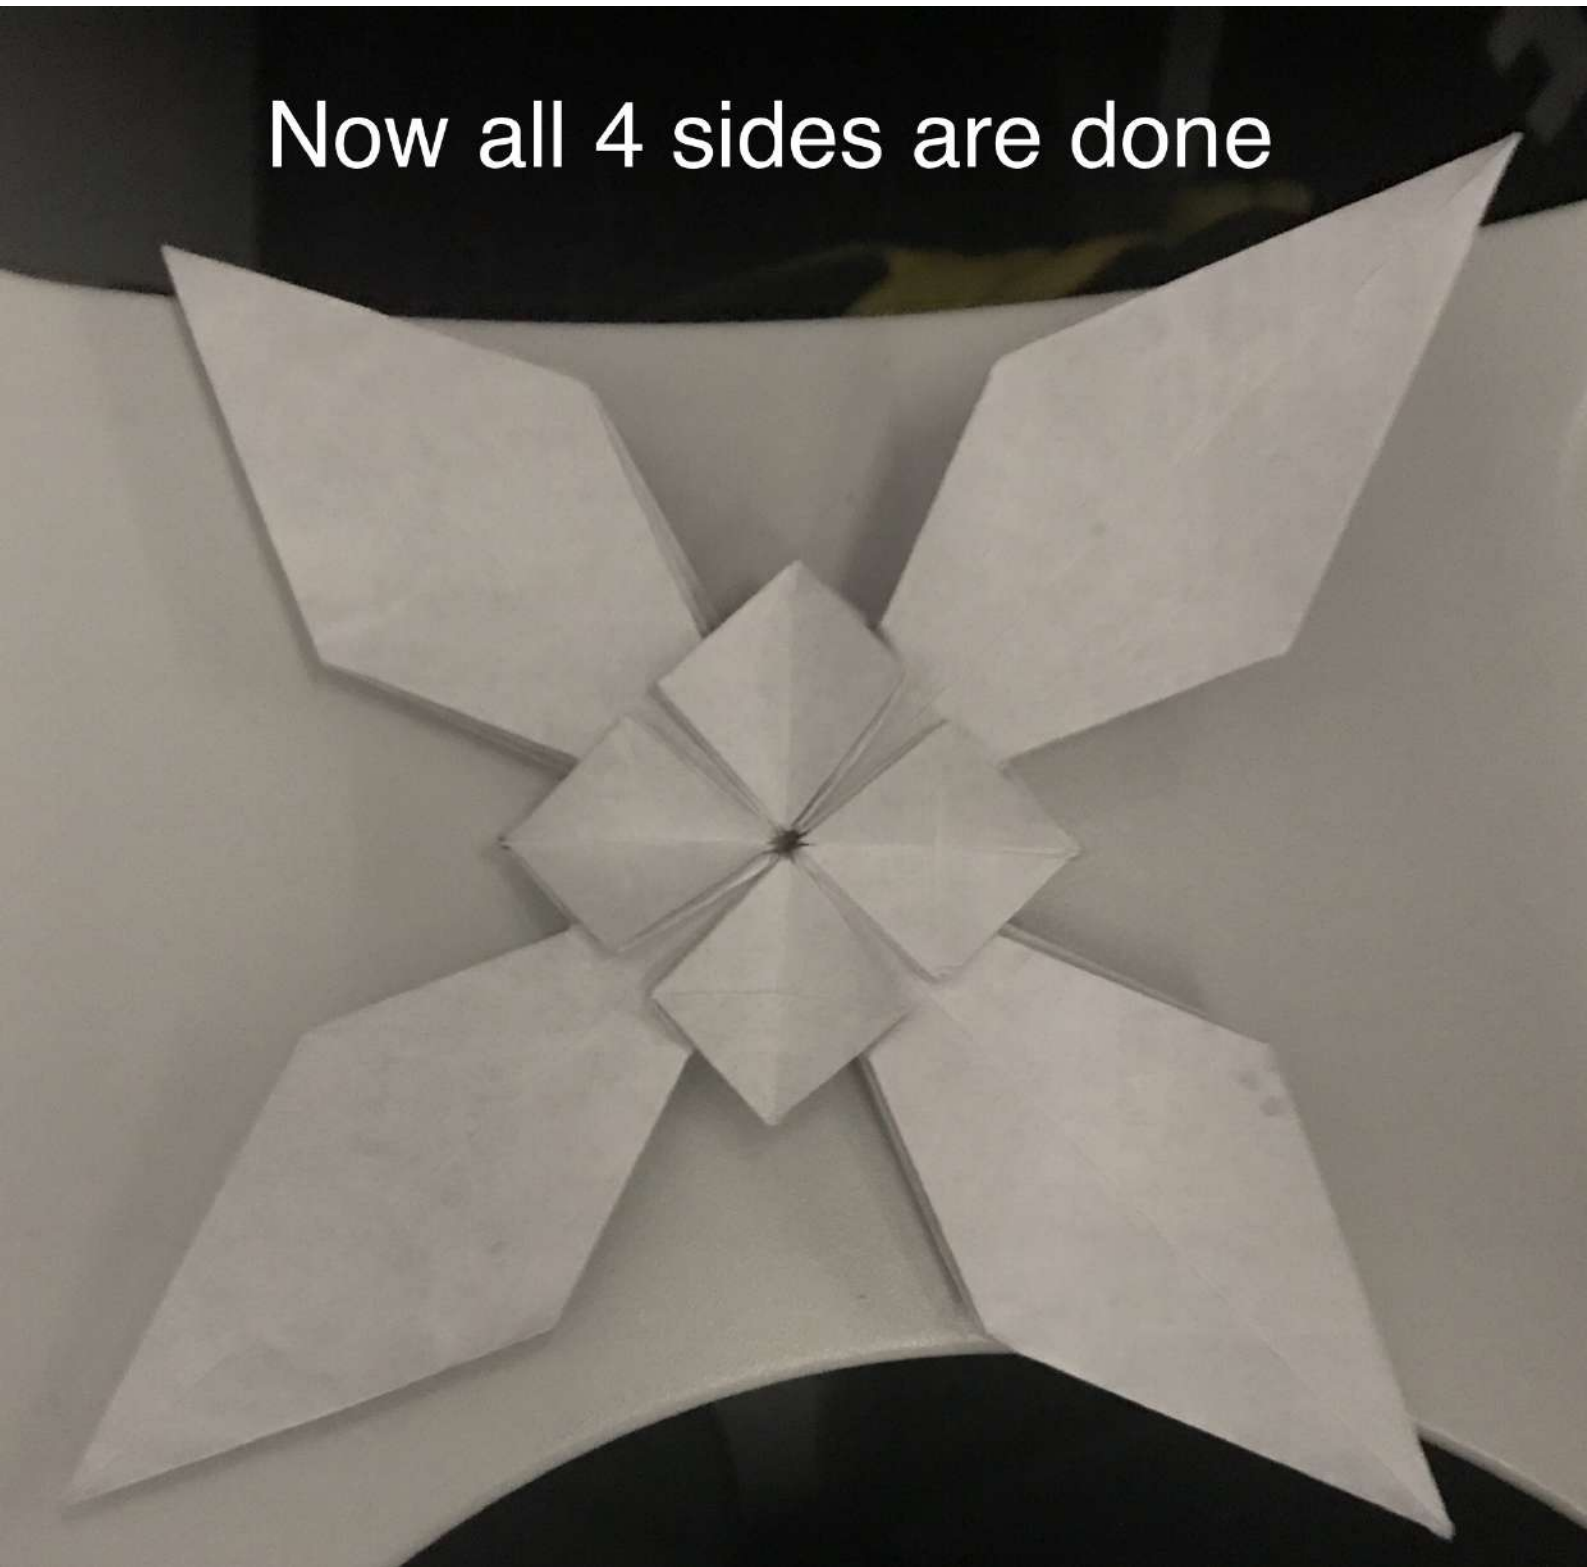

Fold and
spread using
previous
creases

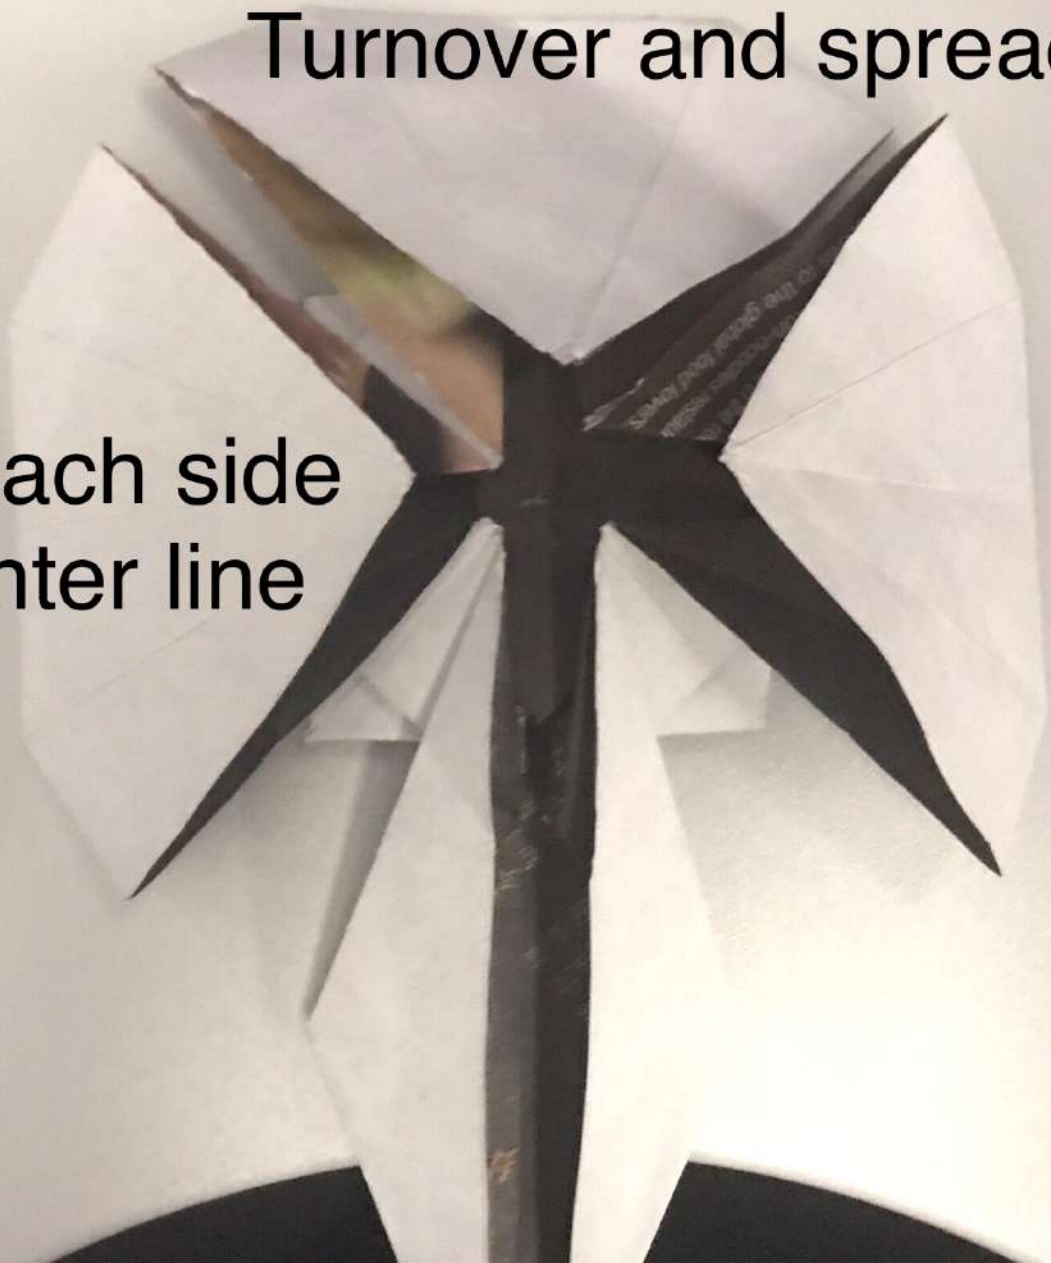

Closed sink

Now all 4 sides are done

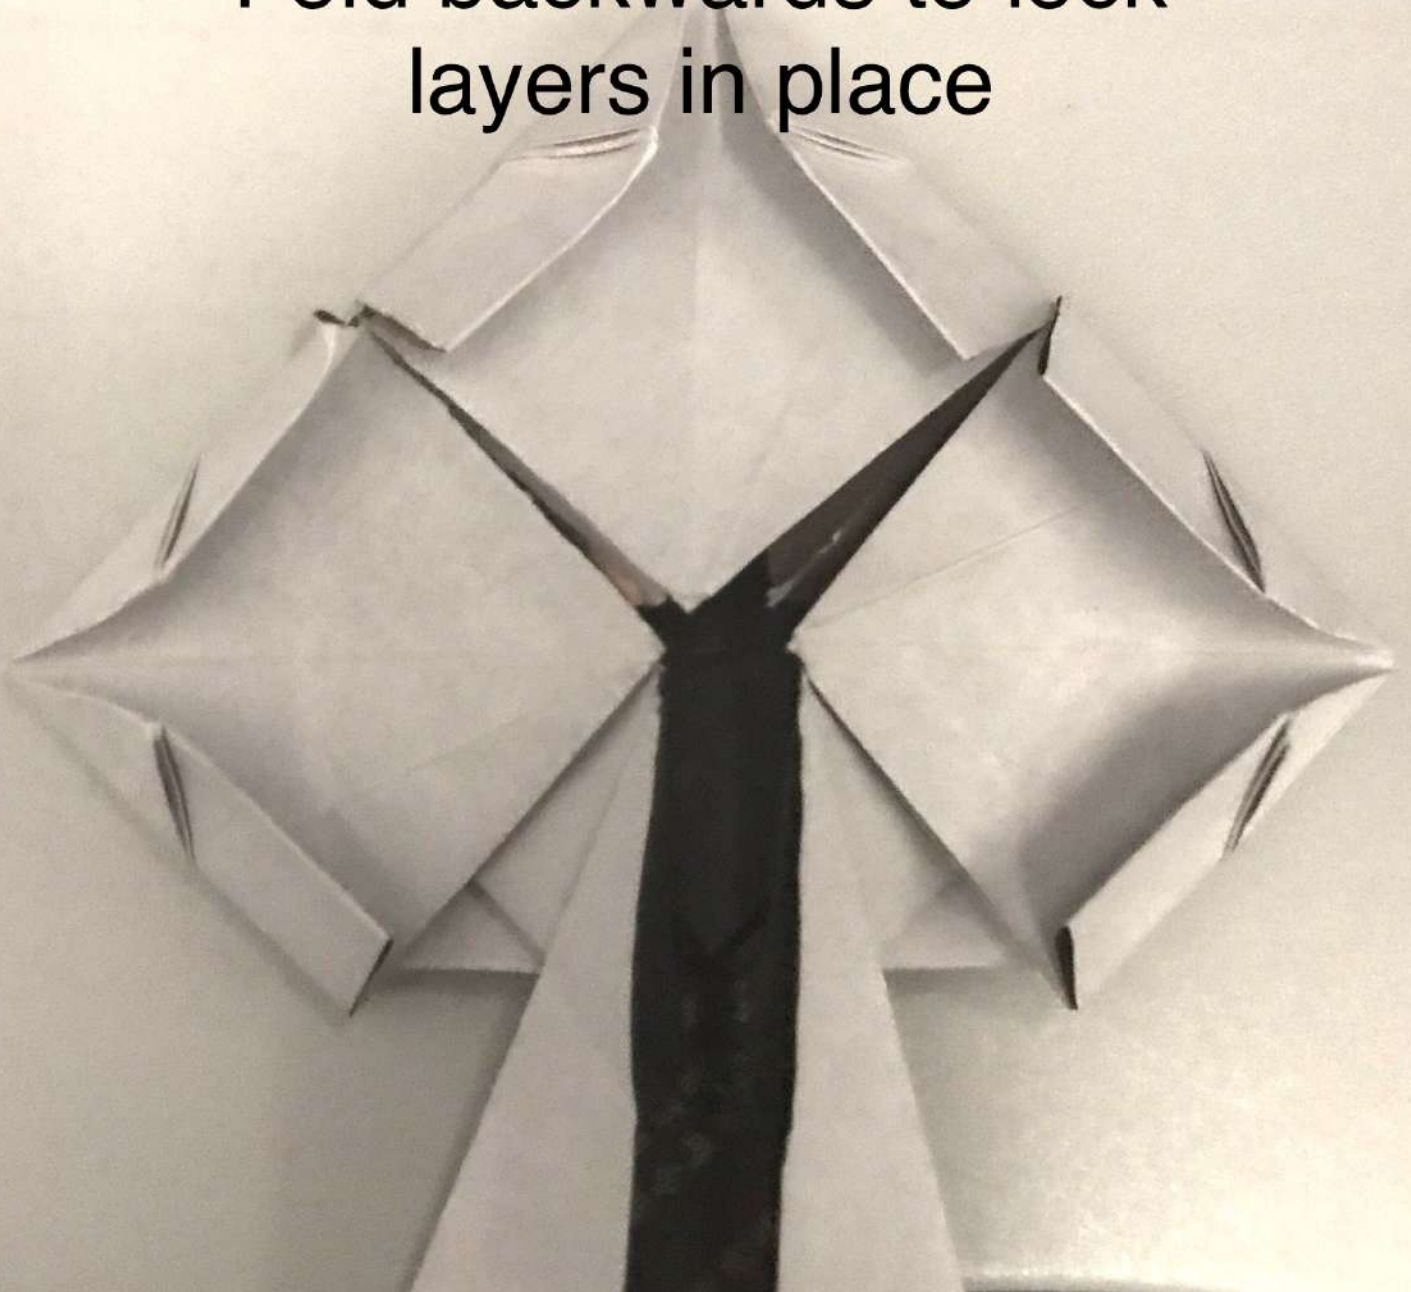

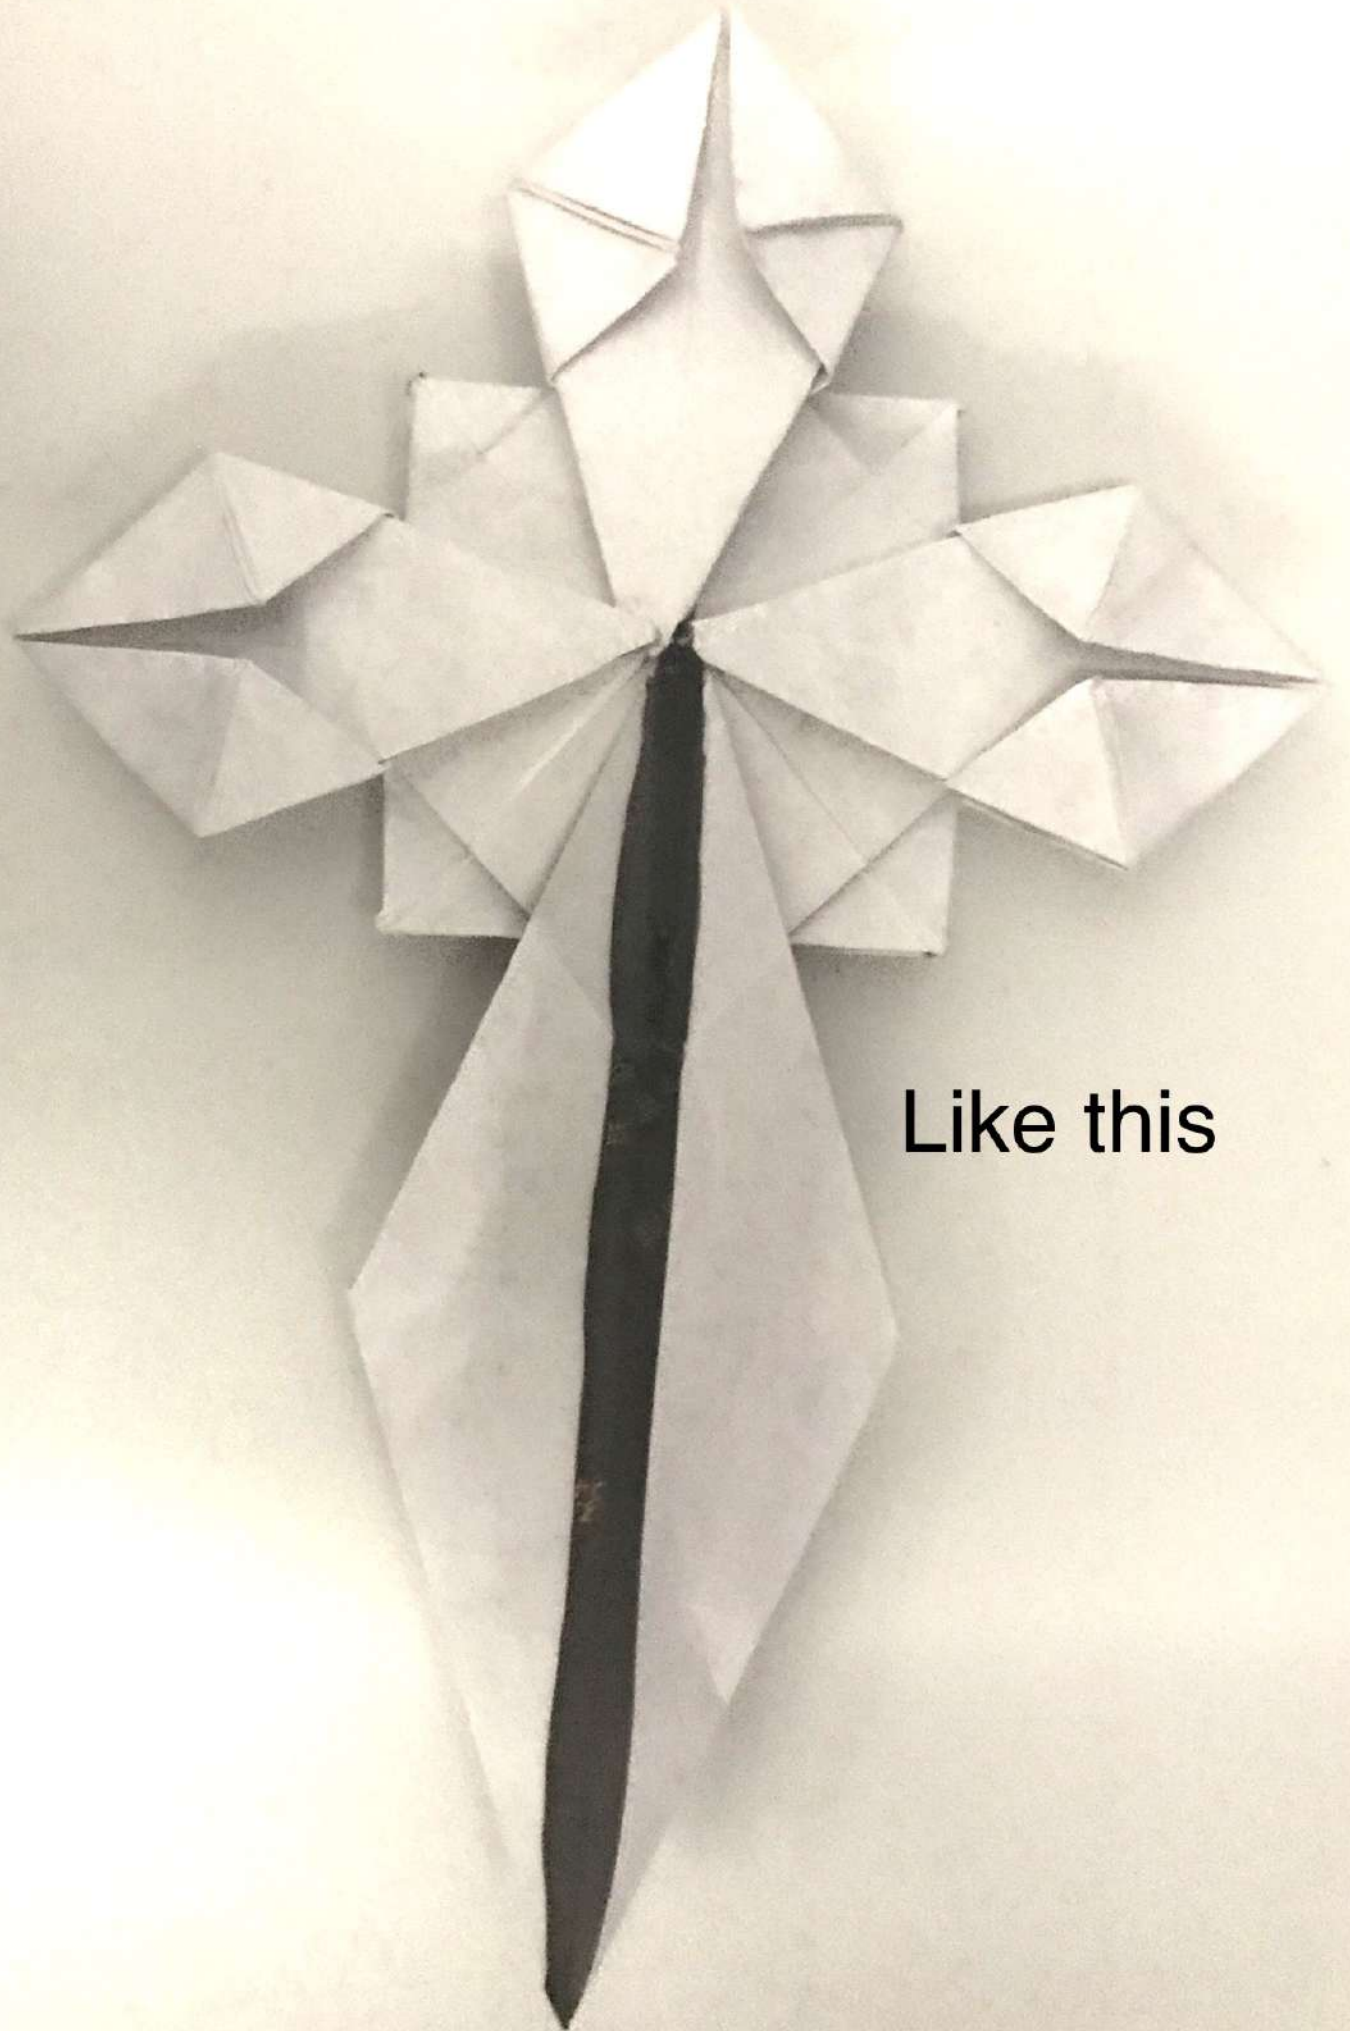

Turnover and spread

Fold each side
to center line

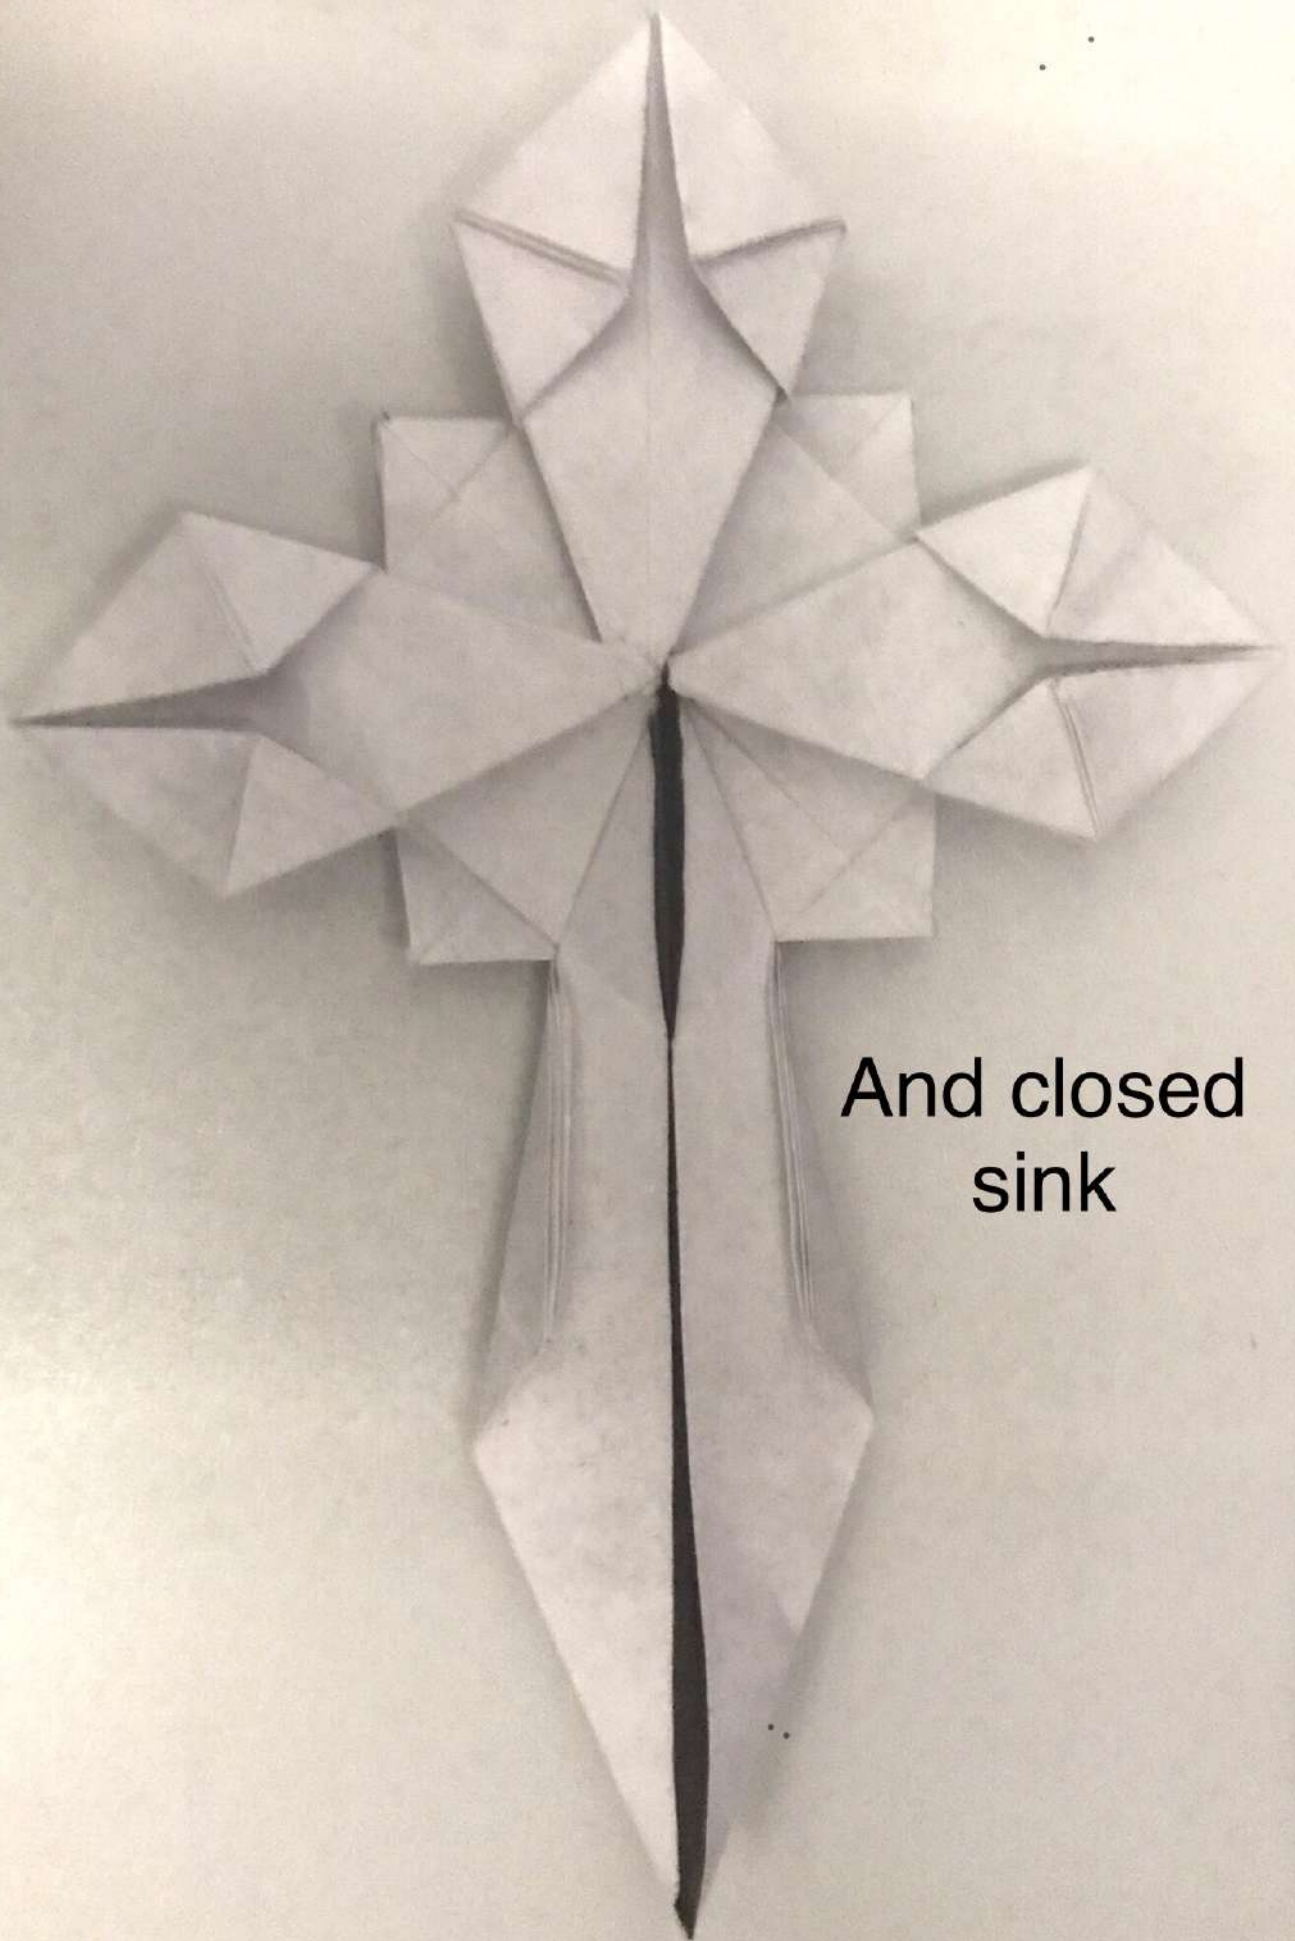

Fold backwards to lock
layers in place

Like this

And closed
sink

Trim the remaining side

Base done

Refer
instructions
to the
hydrangea
tessellation
for finishing
