Can origami be considered art?

*Origami có được coi là nghệ thuật không?*

What is art in origami?

*Nghệ thuật trong origami là gì?*

When does origami become art?

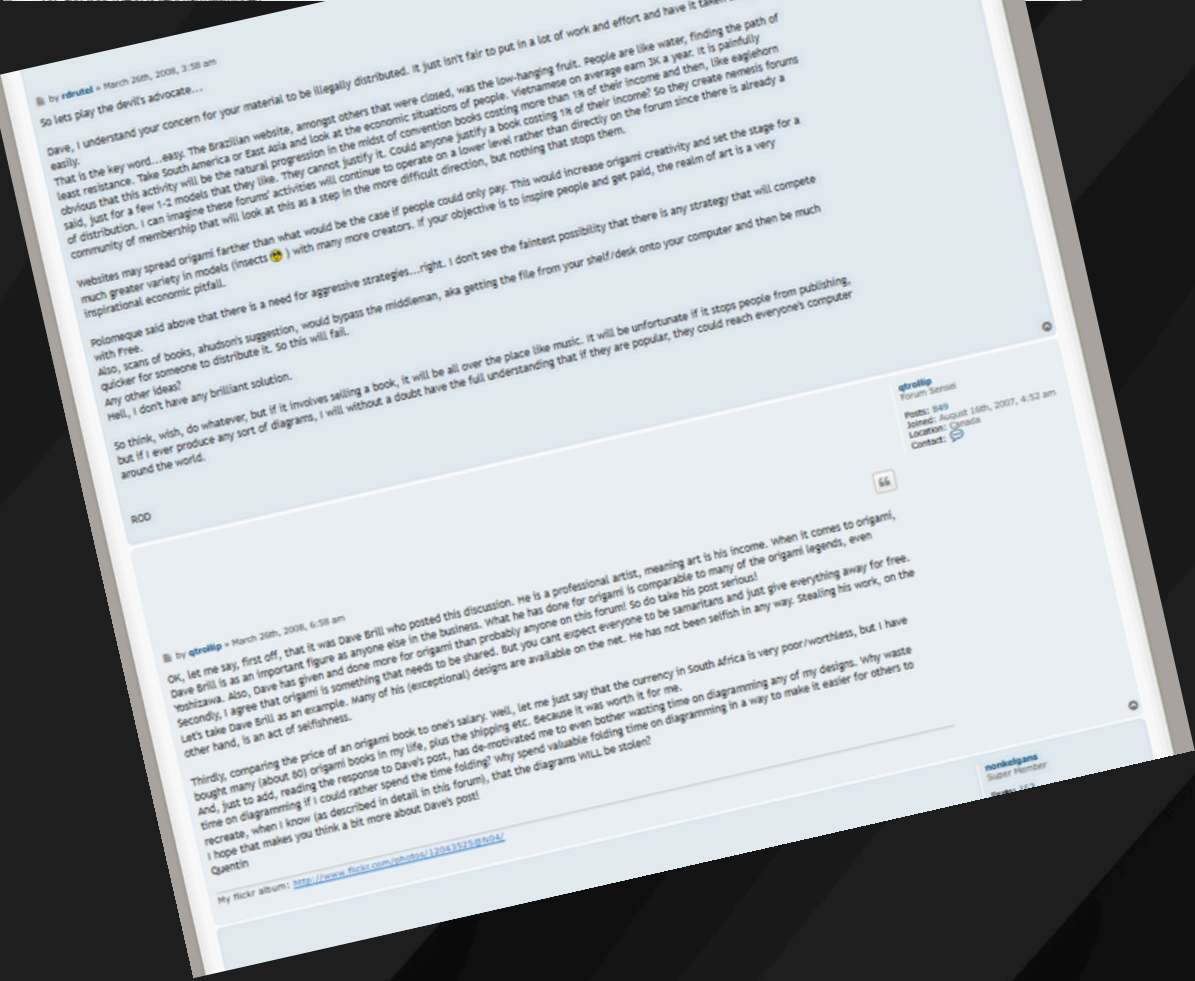

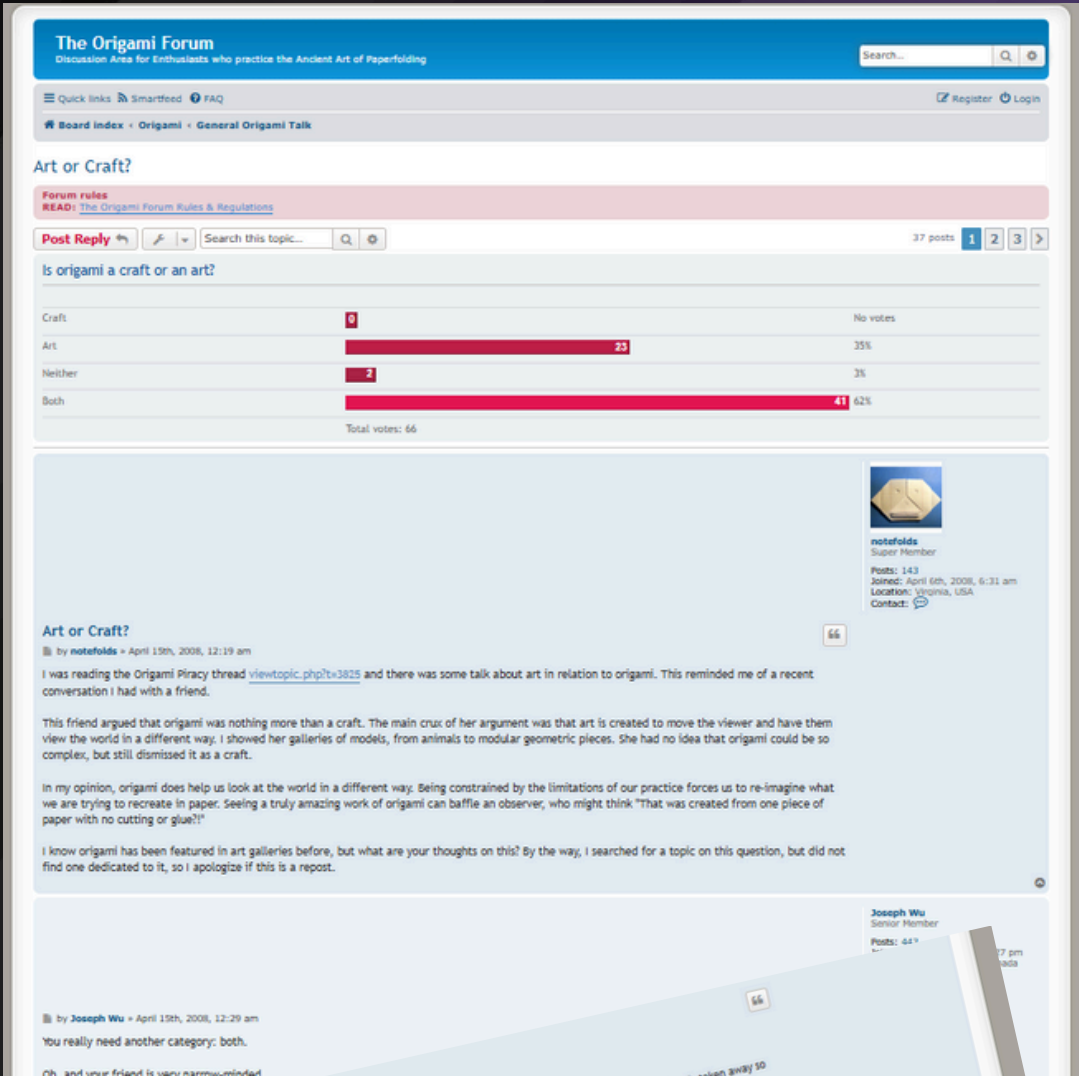

Khi nào origami trở thành nghệ thuật?

# **Endless debates**

# **Tranh luận vô tận**

I would really like to buy hard copies of some out of print books. To me folding from a real book is much more comfortable than folding from a digital copy. But how do you get access to such books? Where can I buy books that where out of print maybe even before I was born?

My Origami library is three bookshelves large but there are still so many books missing that I would like to get but can't find anywhere to buy.

Some of these books would be easily accessible over file sharing sites.

Excellent response Anna...

Like you said, Dave pointed out art is not entirely his income, however he enjoys the money that comes probably along with the inspiration he has in the origami community. It appears Quentin's lack of fortitude was bright and shining when he stated that a single post demotivated him from wasting his time drawing up diagrams. So it is a waste of time to spread art around the world or to spread inspiration around the world? I guess I won't make diagrams because I won't be able to get money for them.... Diagrams can only be stolen if you seek money for them Quentin, something Dave is not so interested in. You must be greedy if you have no intention of passing on your models in any other method than one that creates income.

Being able to buy 80 books even in South Africa is a terrible example. But I guess you are a money-oriented individual sitting on an ample amount. The ability to buy so many books comes from the ability to feed yourself and others first and thus having an income sufficient enough to supply both. So did you move to Canada for the higher valued currency Quentin?

Also, you agree with sharing, but you really want to be paid otherwise you cross your arms, noticeably pouting, and quit right? Do you stomp your foot too when a post upsets you? It seems you have little care for being a good samaritan yourself, a parable you used. So why don't you familiarize yourself with the Bible a bit more by reading past the 8th commandment to where it mentions being generous and feeding thousands with 5 loaves and fish. This is a
