

Simple Dinosaur

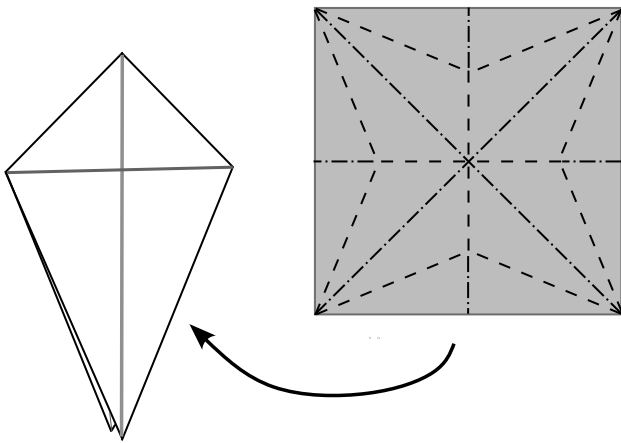

Designed and diagrammed by
(arnigami)

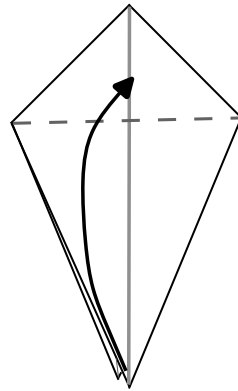

Difficulty level * 15%

Recommended sheet: 15 cm kami

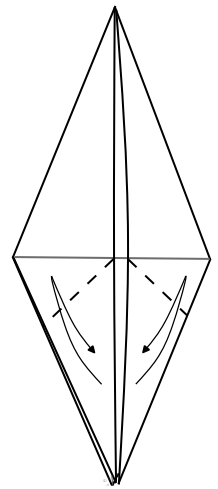

Note that the model ends up with no colour changes, so the diagrams indicate white uniformly.

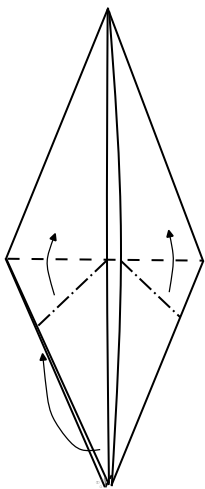

1. Start with a bird base.
(Crease Pattern (CP) on the right)

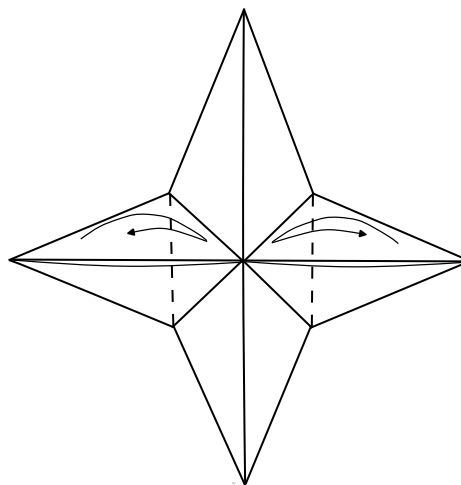

2. Lift the flap up on the crease.

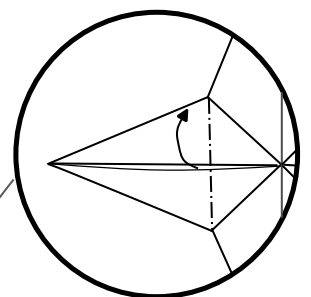

3. Fold and unfold.

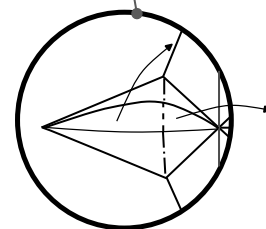

4. Squash fold on both the adjacent flaps.

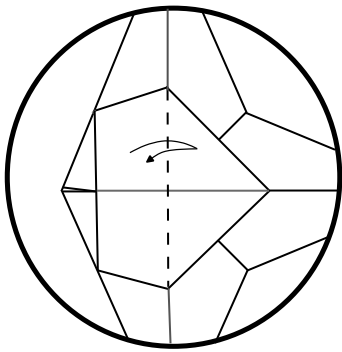

5. The result. Now, valley fold
as indicated.

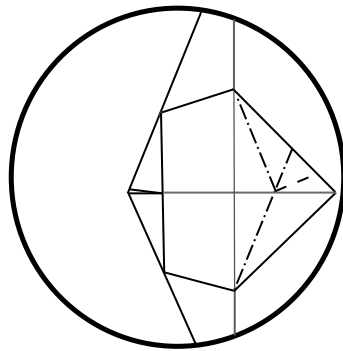

6. Focus on the left side.
Squash fold opening the
indicated lines.

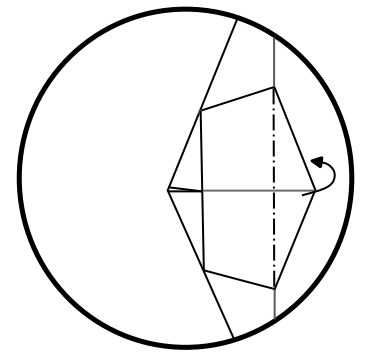

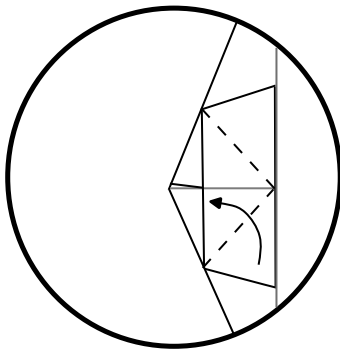

7. The result. Now fold and unfold, corner to corner.

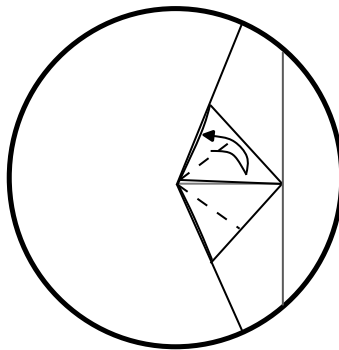

8. From this step, only the left side will be visible. Fold both edges inside so as to reduce the flap space.

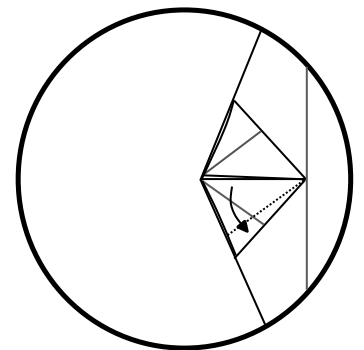

9. Tuck this flap in the immediate pocket.

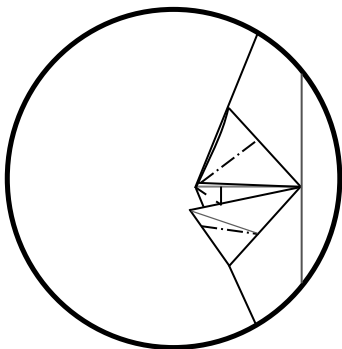

10. Fold the corners in.

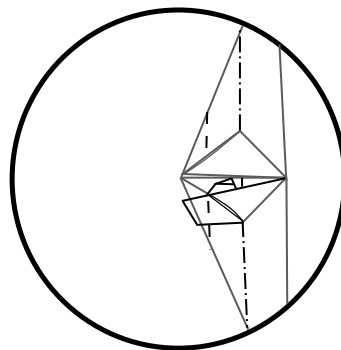

11. Fold to the centre and unfold.

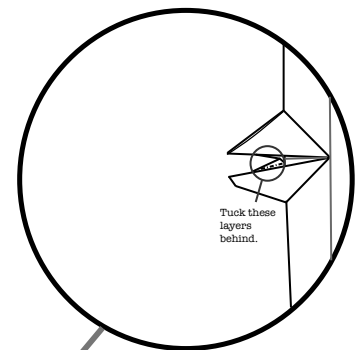

12. Swivel the lower flap at a sweet ratio..

13. Inside reverse fold on both the flap segments.

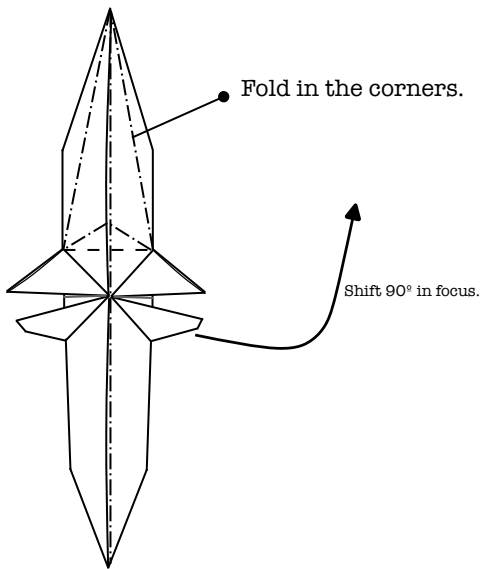

14. Pleat, but into the closure.

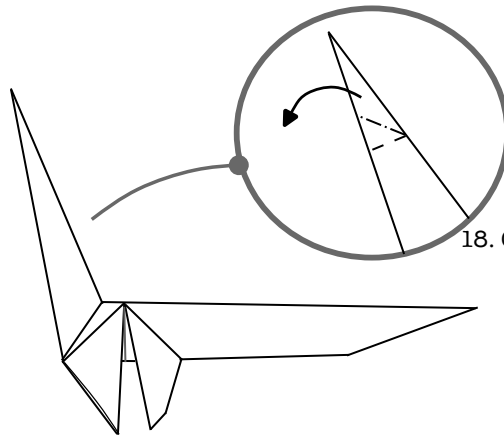

15. The result. Now repeat steps 6-14 on the right.

Now you have created the legs.

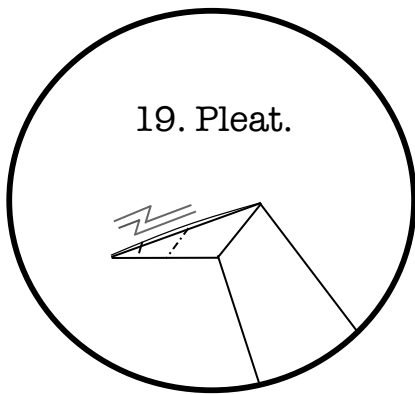

16. This is how it should look.
Perform the crimp simultaneously.

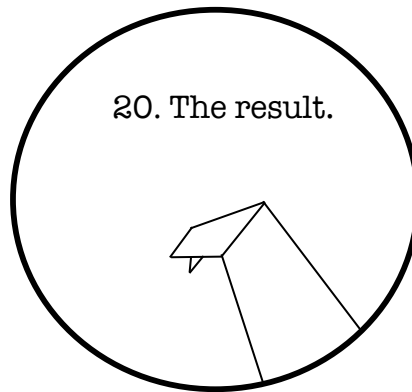

17. The new orientation.

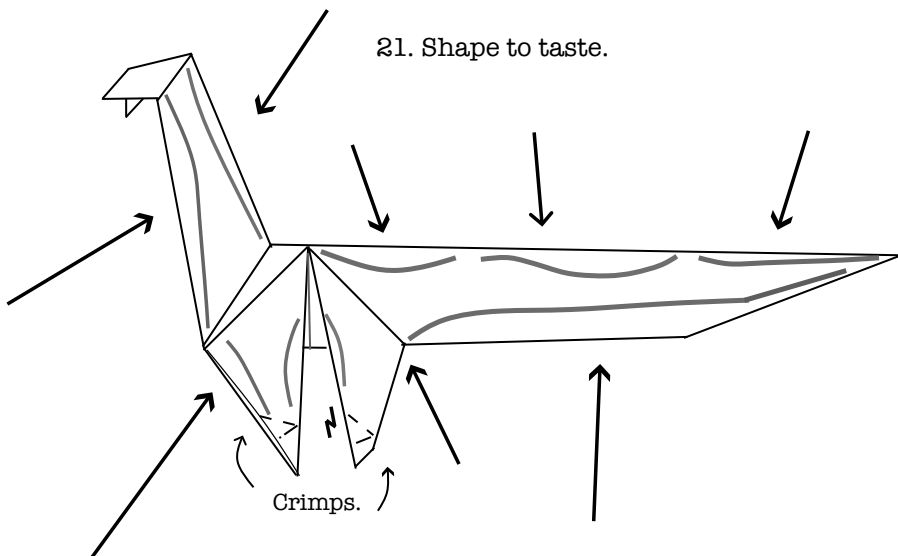

18. Crimp as given.

19. Pleat.

20. The result.

The possibilities are endless!
