

DANZA DE CUADRADOS

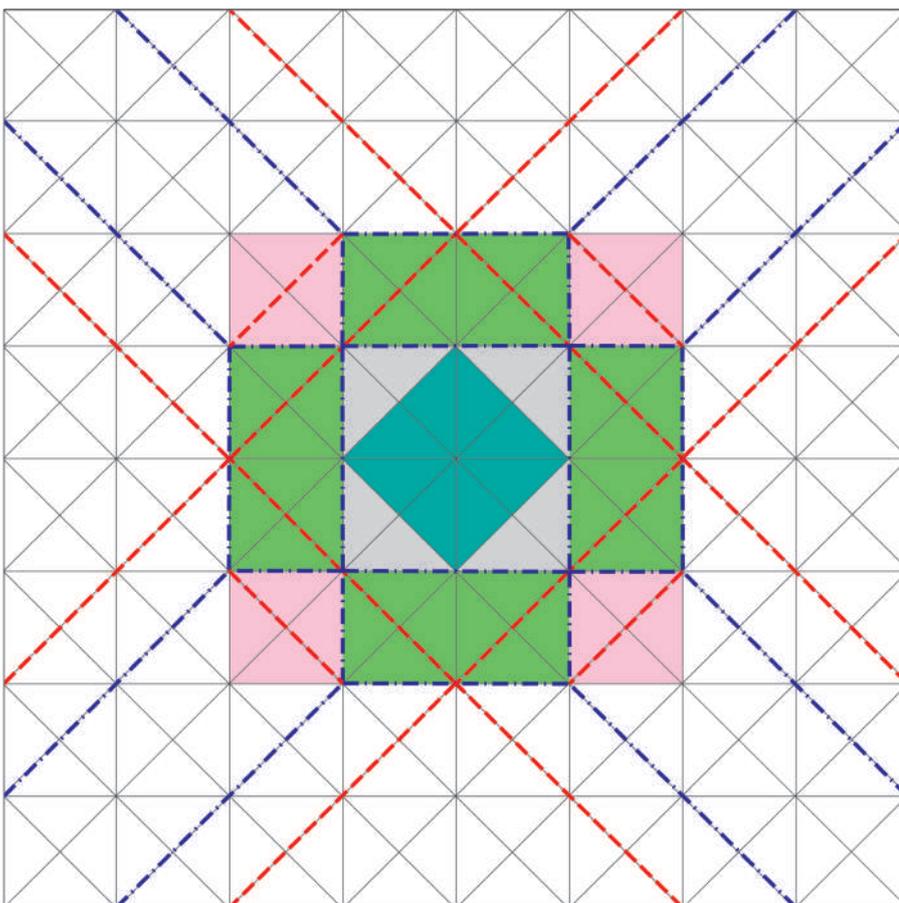

Diseñada y diagramada por Jimena Candia

Alquimia Japonesa

1. Para aprender a hacer el movimiento del papel, necesitarás una trama cuadrada de 8 espacios y 16 diagonales

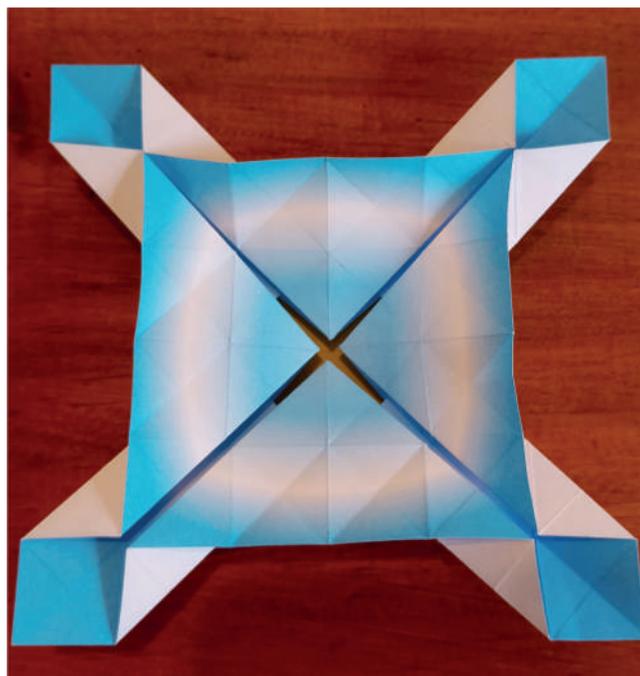

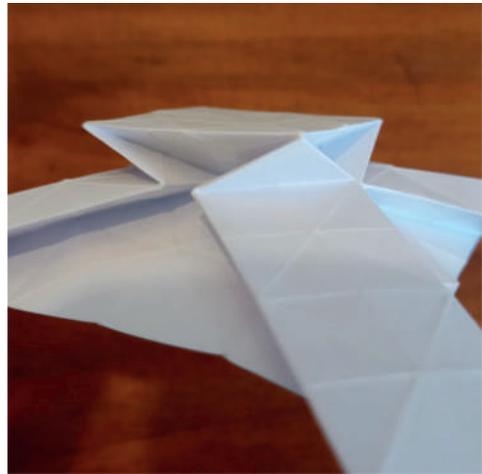

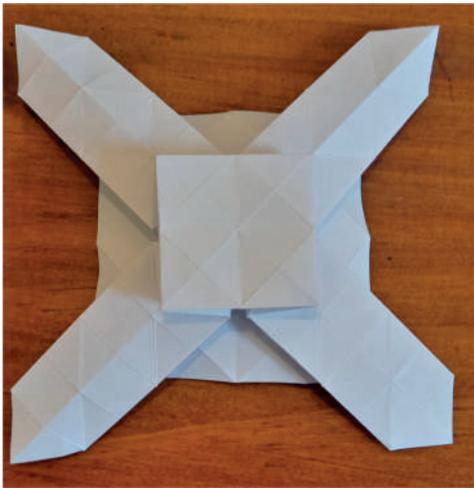

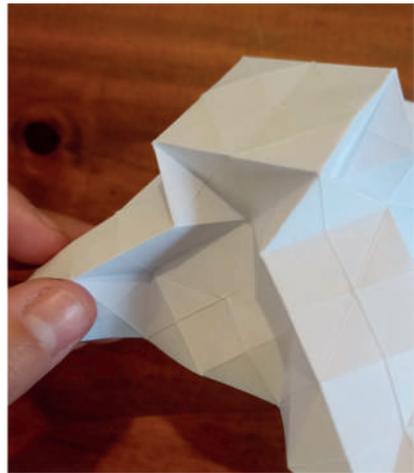

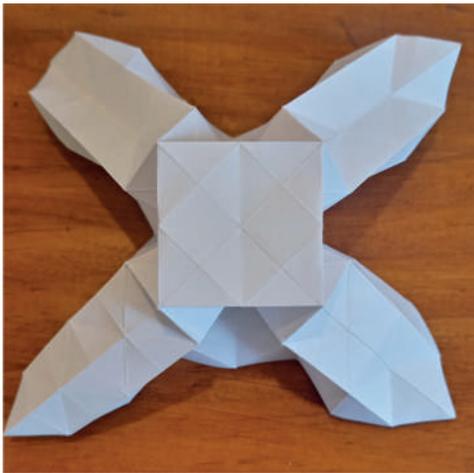

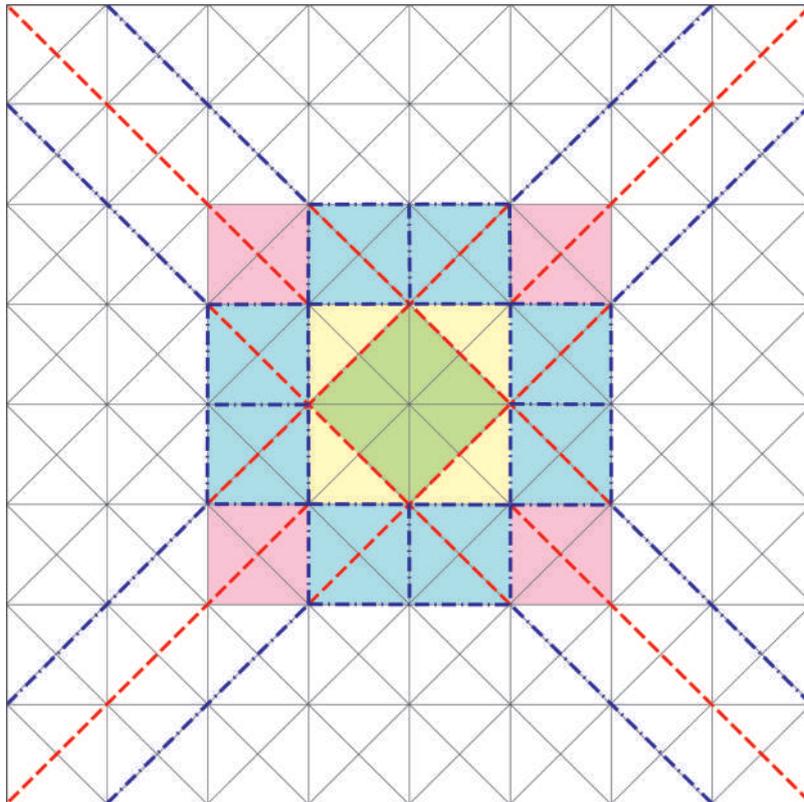

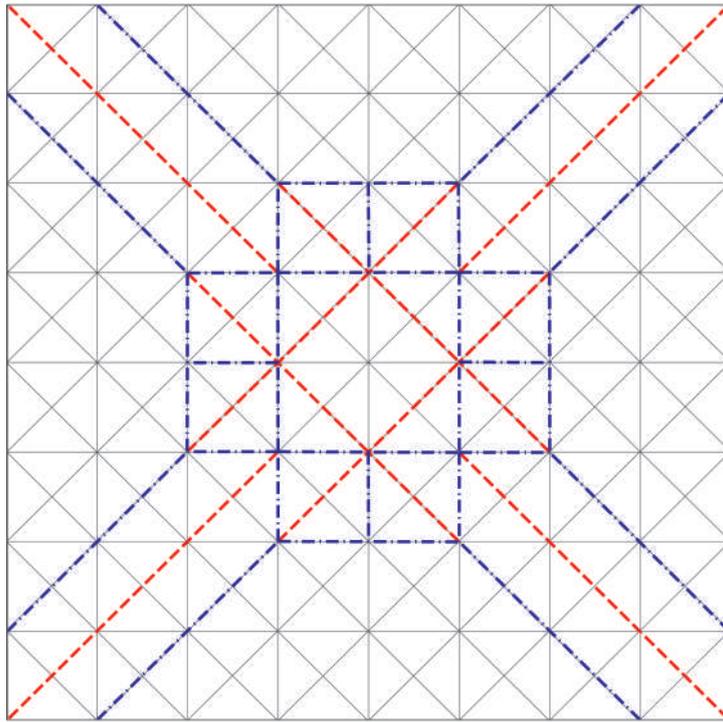

2. Si lo considera necesario, pre-marque los pliegues en montaña y valle. Esto facilitará al momento de colapsar. En las fotos siguientes se muestran imágenes del papel al momento de colapsar

Para ver el tutorial, escaneá el siguiente Código QR
