

Fred Rohm Simplex Base

Diagrams by Ismael Adolfo Cerceda, for the Origian issue no. 3.

Diagrams are republished with approval of the OUSA Copyright committee.

Simplex Base Preparation (Steps 1-6)

Step 1: Mountain fold a diagonal guideline; open paper. Valley fold top two edges to meet the center guideline.

Step 2: Mountain fold along center line (the guideline).

Step 3: Reverse fold lowermost point, raising it to form a right-angle (90 degrees) with the upper point.

Step 4: Valley fold lower edges as indicated.

Step 5: Valley fold lowermost tabs to form the "hands-in-sleeves" arrangement.

Step 6: The Simplex Base is in a "GO-condition."

Chick

Step 7: Reverse fold head and tail points as indicated.

Step 8: Valley fold the near sides of both the head and tail point.

Step 9: On the head "diamond", open the "split" outward along the indicated valley fold lines.

Step 10: Close the head along the valley fold line, and raise point "A" to the position shown.

Puppy and Kitten

Step 7: Reverse fold the head and tail points as indicated.

Step 8: Reverse fold the head points.

Step 9 (A & B): For the Puppy, reverse fold the ear point as indicated in the diagram. For the Kitten, reverse fold the ear point all the way forward, as shown in diagrams "A" and "B".

Scottie

Step 7: Reverse fold head and tail points as indicated to get step 8.

Step 8: Mountain fold the top edges of both paws. Reverse fold tail as indicated. Crimp head point, and reverse fold tip of head point.

Step 9: Reverse fold the same tip upward to make the Scottie's little "button nose".

Step 10: Completed figure.

Chick-A-Dee

Step 7: Reverse fold head and tail points as indicated.

Step 8: Reverse fold head and tail points as indicated.

Step 9: Crimp the beak and tail sections as indicated.

Steps 10-13: Final adjustments and crimps to complete the dual-figure Chick-A-Dee.

Squirrel

Step 7: Mountain fold lower edges of the paws, as indicated.

Step 8: With one hand, hold the body below the valley fold line at the place where the diagram reads "PRESS". With the other hand, open up the head point above the valley fold line.

Steps 9-11: Reverse fold the peak upward, then reverse fold the peak downward to form the completed head.

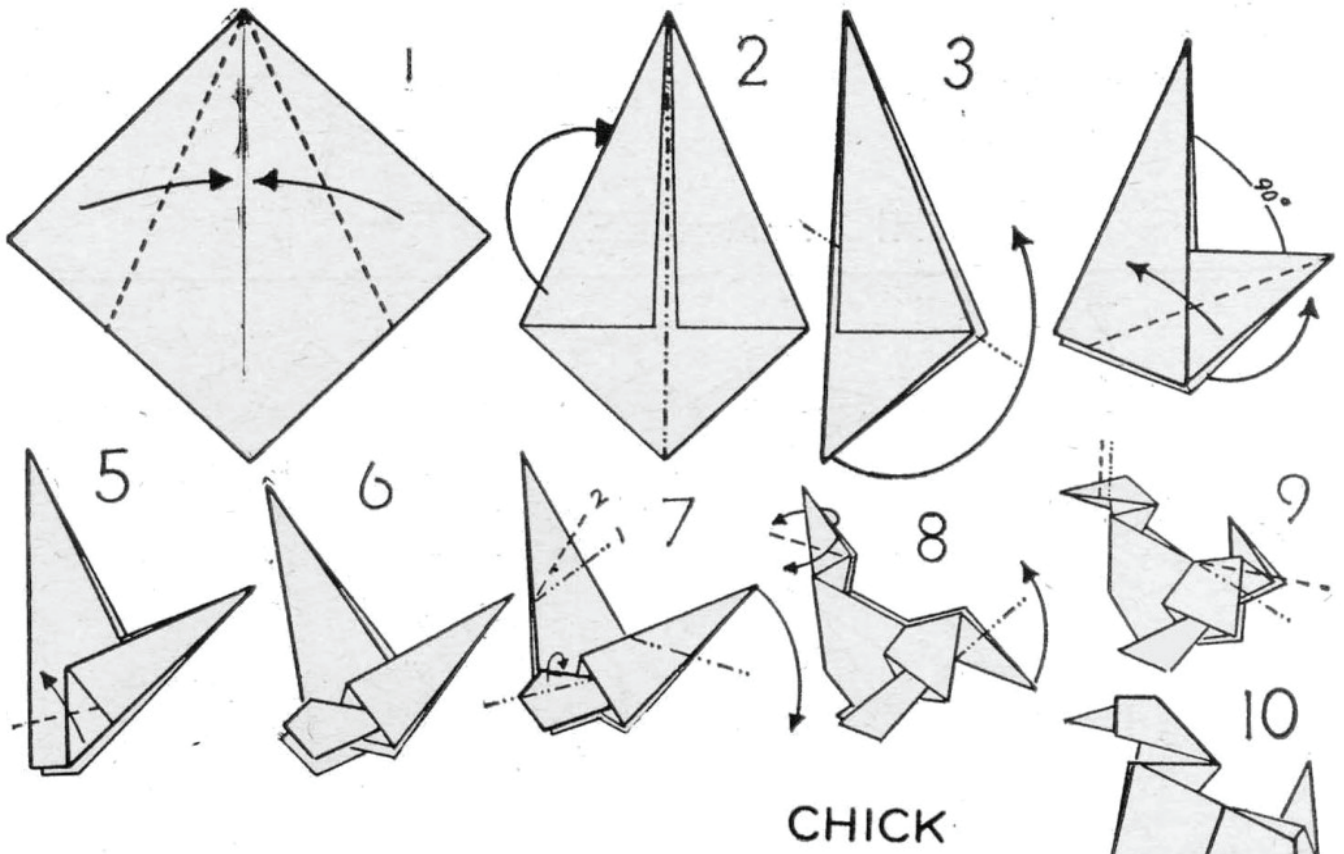

Steps 12-13: Crimp the wheelbarrow point as indicated, then reverse fold as in diagram "A" to get diagram "B".

Gardener

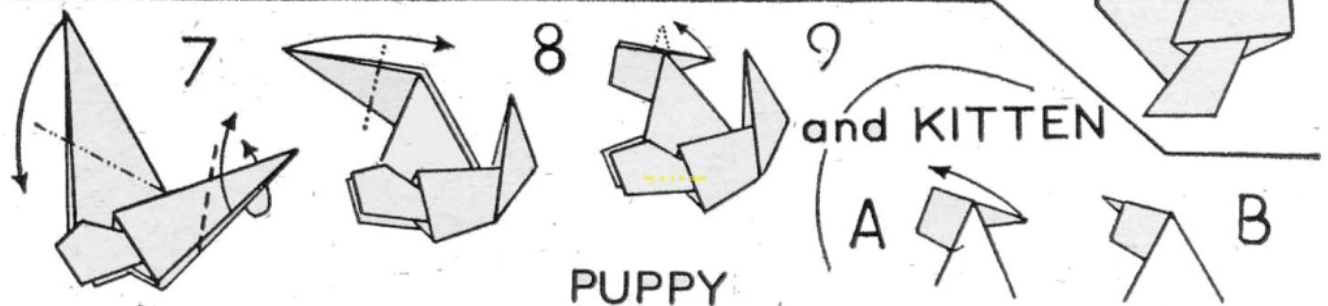

Step 7: Reverse fold the wheelbarrow point as indicated.

Steps 8-12: Mountain fold top edges of the "hands", reverse fold the tail point, and double-reverse fold the head point (crimping).

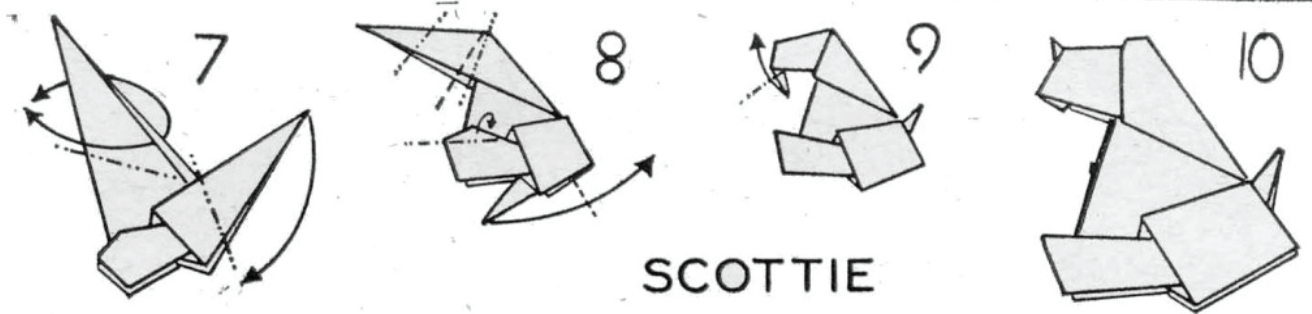

Step 13: The completed Gardener.
