

Noelia | Maximiliano Ortiz | Design and diagrams | 10.08.2023

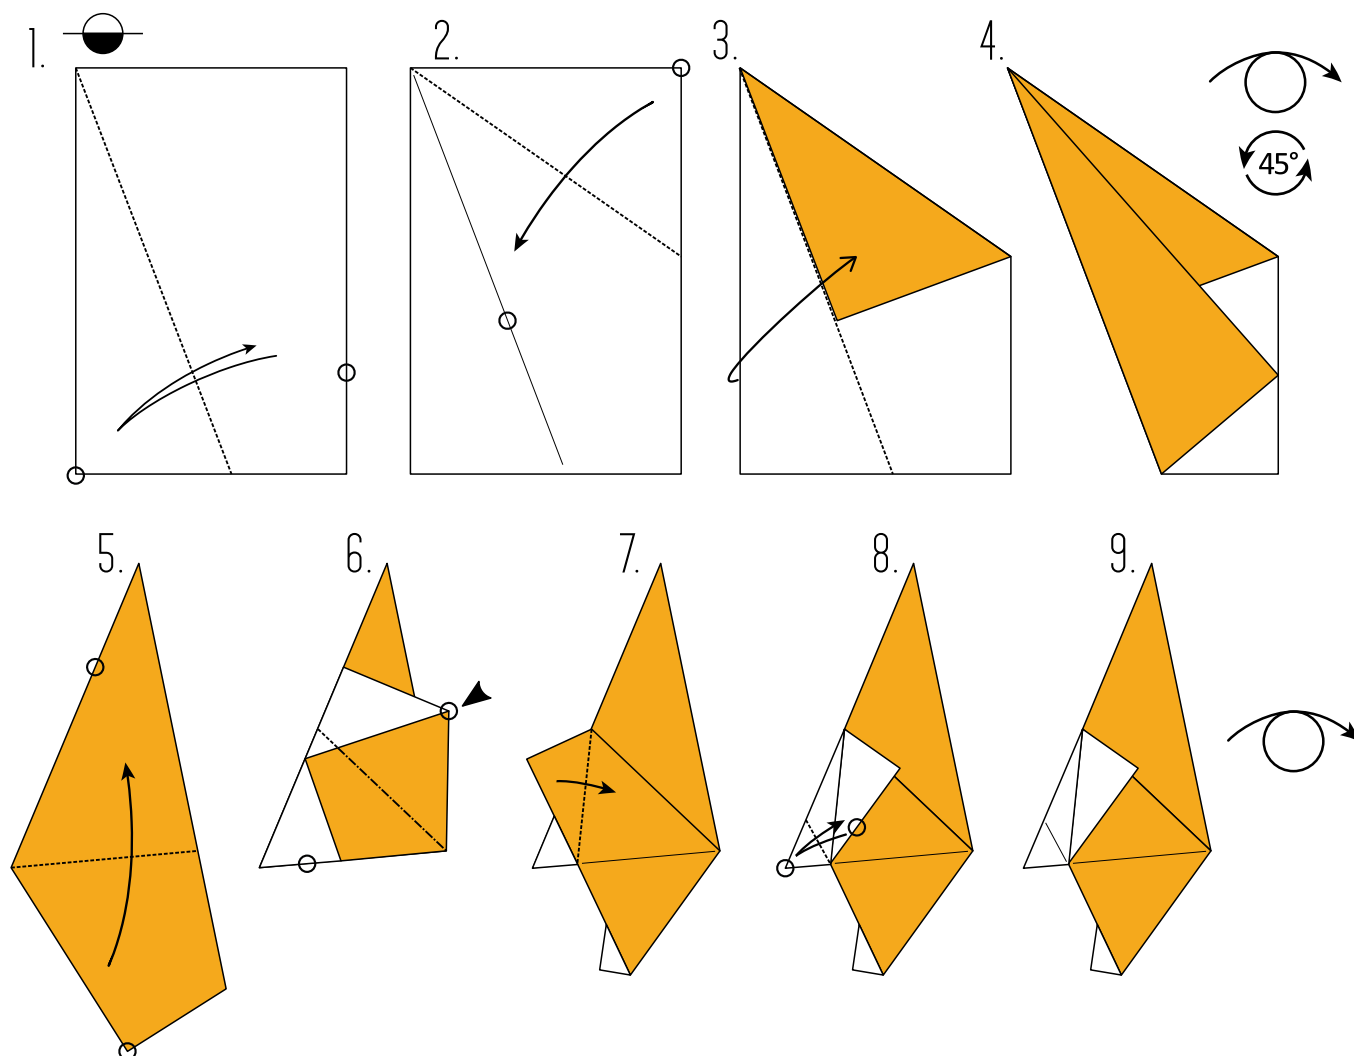

This star emerges from the heart-wrenching news of the passing of our cherished Argentine origamist, Noelia Avila (38), better known as ChicaOrigami (Origami Girl). She was a much-loved figure by all of us who had the chance to meet her in person or through her Instagram livestreams. She had a sweet personality with a captivating smile and a gentle voice that charmed everyone; it was impossible not to like her. Sadly, she left us too soon, and upon learning of this news, I didn't hesitate to start folding paper in her memory. In her honor, I created this 10-pointed star using 3:2 rectangles. I hope people all around the world can fold this star to remember her always.

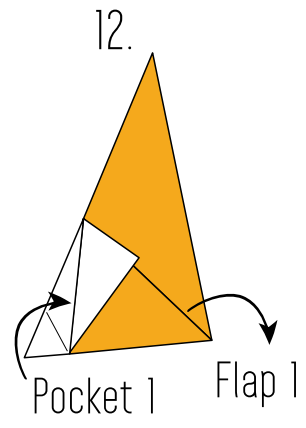

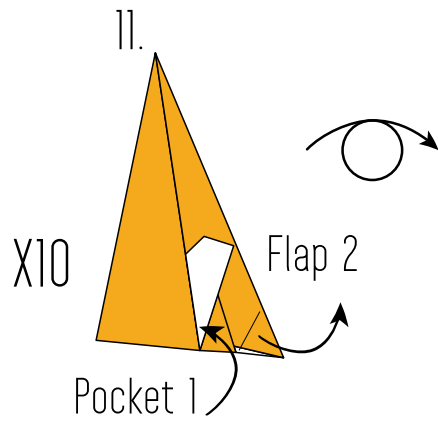

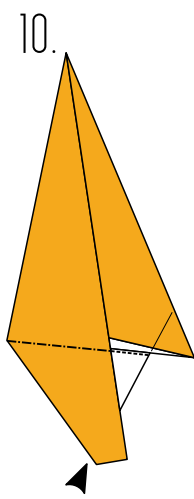

Cut

10 sheets double sided 5x7,5 cm **Rectangle 2:3**
